Social Work Face To Face:

Social Work Face to Face Stuart Rees, 1979 Against a background of pleas both official and popular for greater involvement for more say in their affairs for clients consumers recipients of all sorts the author presents a dramatic picture of what really happens when Man meets Official communication emerges as the produce of half articulated ideologies preconceptions and ingrained social attitudes rooted in the past As the data unfold the obstacles to help on both sides reveal themselves as part of the fabric of their societal context Striking correspondences appear between the attitudes on either side of the counter and moral judgements implicit or explicit are seen to play a key role in the decision to seek or to give any form of support Dr Rees s many years of experience provide the basis for his proposals for improving social workers training and agencies organization of their resources His cases illuminated from both sides by verbatim transcriptions give the book an impressive immediacy and a relevance which no reassessment of theories and priorities can afford to ignore

Conversation Analysis for Social Work Gerald de Montigny, 2018-10-11 What do the stories youth in state care tell about life in their family of origin What stories do they tell us about coming into care living in care and relationships with foster parents and social workers This book presents the stories of youth in care though not in splendid isolation but as interactively produced turn by turn in interviews and in conversations with other youth By using tools from conversation analysis CA the author examines interviews with youth in care and social workers to unfold the essential and incorrigible reflexivity of story production CA allows us to grasp the ways that a youth s story emerges turn by turn and is an artefact of a social relation between a youth and an interviewer This text provides social work readers with a sense of art artistry and ambiguity at the heart of social interaction It will be required reading for all social work students and academics looking for a deeper more philosophical understanding of the profession

Social Work and the Third Way Bill Jordan, 2000-10-23 This lively book critiques New Labour assumptions and implementation of policies related to citizenship communities and welfare reform and the implications of current developments for social work Focusing explicitly on the UK the book nevertheless draws on examples and comparisons from other countries including notably Australia and the US but also countries in the EU and Central and Eastern Europe and some of the concerns and arguments will be appreciated by readers elsewhere International Social Work This book is a well written contribution to both the British Third Way debate and the welfare state literature The book will appeal to upper level undergraduates as well as scholars of British politics and the welfare state Political Studies Jordan begins by establishing New Labour's suspicion of local government framing its policy on welfare Fundamentally there exists a need for social workers to educate themselves as to the nature of this social experiment which New Labour has embarked upon It challenges social workers to be aware This is an interesting and at times challenging book reiterating the history and roots of current ideology within government The work is grounded in a contemporary context of social services and social work practice challenging the withdrawal of social work behind a barrier of managerialism budget control form filling into office based assessment and rationing Finally it offers a satisfying critique to the dominant hegemonic of evidence based practice arguing for research at the level of means rather than the technical Jordan similarly argues in his conclusion that all of the government white papers guidelines etc indicate a lack of clarity of purpose and method social work should retain its belief in a human and creative activity which engages with people's emotions as well as their rights and obligations British Journal of Social Work The New Labour government in the UK is committed to a programme of reform of the welfare state that will pull away safety nets and replace them by trampolines to bounce citizens back into active participation Its regime of tough love will make more demands on those claiming benefits and services as well as clamping down on dependency fraud and crime This will be done by changing the culture of welfare agencies towards promoting achievement and independence as well as meeting genuine need In Social Work and the Third Way Bill Jordan provides an accessible and lively analysis of the tensions between toughness and love in the Third Way's political philosophy and the problems of implementing New Labour's programme He looks at the government's reliance on face to face methods for activating citizens and changing their behaviour in many of its initiatives On the one hand New Labour places a surprising amount of faith in the ability of counsellors and advisers to bring about the changes it requires yet it is highly suspicious of the public sector in general and local authorities in particular as part of the forces of conservatism in the UK Hence it spawns new agencies and projects often with a strong enforcement ethos and regulates the whole implementation process through strict top down surveillance

In all this professional social work and local authority social services are relegated to a tightly circumscribed role in social care The author argues for a new more generous and expansive approach to practice which can do justice to the challenges of change under New Labour s regime and in doing so Social Work and the Third Way provides an important and topical contribution to the debate on the future of the Welfare State and will be essential reading for students and researchers in social work social policy and politics
