Statistics for Management and Economics Collin J. Watson, 1994 **Flying Off Course** Rigas Doganis, 2012-08-06 In the years since the first edition of Flying Off Course appeared the international airline industry has changed dramatically. Deregulation has become widespread and has brought with it new operating practices and management concepts. This revised and updated edition reflects these changes. Key aspects of the industry are expertly analyzed including issues such as the factors affecting airline costs, the problems of pricing airline marketing and product planning, the impact of United States deregulation, European air transport after 1992, the crisis in airfreight and the economics of charters. Flying Off Course provides a fascinating and topical insight into the working of international transport as seen from an economist's viewpoint and will be a key text for those involved in the field.

Balance of Payments Statistics Yearbook, 2011 International Monetary Fund. Statistics Dept., 2011-11-29 Composed of international economic transactions data, BOPS delivers critical statistical information that covers total goods, services, income and current transfers an economy receives from or provides to the rest of the world, capital transfers and changes in each economy's external financial claims and liabilities, tables featuring area and world totals of balance of payments and IIP components and aggregates. The IMF Balance of Payments Statistics contains over 200,000 quarterly and annual time series data. The data include aggregate as well as detailed information in the form of analytical and standard component presentations for countries. Additional documentation is included with descriptions of methodologies, compilation practices and data sources used by individual member countries in compiling their balance of payments and international investment position statistics.
