Colonial America The Revolutionary War Abolitionism and suffrage The Civil War and Reconstruction The Industrial Revolution The Great Depression World Wars I and II The Cold War Civil rights Conservatism and the New Right 9 11 and globalism and more Spain's Explorers in the Age of Discovery Charles River Editors, 2025-06-20 The most seminal event of the last millennium might also be its most controversial As schoolchildren have been taught for over 500 years In 1492 Columbus sailed the ocean blue In October of that year the Italian Christopher Columbus immortalized himself by landing in the New World and beginning the process of European settlement in the Americas for Spain bringing the Age of Exploration to a new hemisphere with him Ironically the Italian had led a Spanish expedition in part because the Portugese rejected his offers in the belief that sailing west to Asia would take too long Columbus had better luck with the Spanish royalty successfully persuading Queen Isabella to commission his expedition On October 7 1492 the three ships spotted flocks of birds suggesting land was nearby so Columbus followed the direction in which the birds flew On the night of October 11 the expedition sighted land and when Columbus came ashore the following day in the Bahamas he thought he was in Japan but the natives he came into contact with belied the descriptions of the people and lands of Asia as wealthy and resourceful Instead the bewildered Columbus would note in his journal that the natives painted their bodies wore no clothes and had primitive weapons leading him to the conclusion they would be easily converted to Catholicism When he set sail for home in January 1493 he brought several imprisoned natives back to Spain with him During the Age of Exploration some of the most famous and infamous individuals were Spain's best known conquistadors Naturally as the best known conquistador Hern n Cort s 1485 1547 is also the most controversial Like Christopher Columbus before him Cort s was lionized for his successes for centuries without questioning his tactics or motives while indigenous views of the man have been overwhelmingly negative for the consequences his conquests had on the Aztecs and other natives in the region Just about the only thing everyone agrees upon is that Cort s had a profound impact on the history of North America If Columbus and Cort s were the pioneers of Spain's new global empire Pizarro consolidated its immense power and riches and his successes inspired a further generation to expand Spain's dominions to unheard of dimensions Furthermore he participated in the forging of a new culture like Cort s he took an indigenous mistress with whom he had two mixed race children and yet the woman has none of the lasting fame of Cort s's Do a Marina With all of this in mind it is again remarkable that Pizarro remains one of the less well known and less written about of the explorers of his age Ferdinand Magellan known in his native Portugal as Fern o de Magalh es and in Spain where he moved later in life as Fernando de Magallanes was unquestionably one of the more remarkable figures of the so called Age of Discovery a period in which Europeans spread their political and commercial influence around the globe Accordingly his name is often invoked alongside that of Columbus but the nature of his achievements has sometimes been misunderstood Magellan has sometimes been credited with proving the world was round since he and his crew were the first Europeans to reach Asia via a westward route But such a claim is based on a popular

misconception referred to by historian Jeffrey Burton Russell as the myth of the flat earth the belief that medieval Europe had erroneously believed the earth was flat In reality essentially no educated Europeans of the late 15th and early 16th centuries doubted the spherical shape of the earth which had been persuasively established by the scientists of ancient Greece even down to Eratosthenes s relatively accurate measurement of its circumference in the third century B C      *Notices to Mariners* ,1880
