The Battle For A New Consciousness:

The New Science of Consciousness Survival and the Metaparadigm Shift to a Conscious Universe Dr. Alan Ross Hugenot, 2016-06-30 Alan Hugenot lectures on the Leading Edge Science of the Afterlife he concluded that the entire universe is conscious and that this explains both near death experiences and certain paradoxes of quantum theory As someone with a physics degree I know that Hugenot's basic idea of a conscious universe is neither crazy nor new Erwin Schrödinger one of the fathers of quantum physics was an avid student of Hindu philosophy and believed something similar Gideon Lichfield April 2015 Atlantic Monthly The existence of a hidden field Bohm's implicate order of non physical consciousness occupying as yet undiscerned additional dimensions which are outside the visible reality Bohm's explicate order as defined by 3 D plus time has now been proven scientifically by the following collated data Recent repeated replication of John Bell's theory of non locality Studies of the Near Death experience and After death communications demonstrated in triple blind laboratory experiments testing evidential mediumship This hidden field implicate order of non physical consciousness also provides the matrix upon which the explicate order of observed reality is continually manifested Alan Hugenot Our challenge is to discover through careful science how we can interface with this matrix of consciousness Viewing psi phenomena as belonging to aspects of reality about which we as yet simply know very little is the only honest way for any scientist to proceed Healthy scientific skepticism must be open to new discoveries and so allow open examination of the scientific data developed by rigorous para normal research Honest open minded inquiry will bring both new discoveries of truth and new laws of physics beyond the limits of the Newtonian paradigm Alan Hugenot

THE NEW THEORY OF CONSCIOUSNESS

DELANIN FADAHUNSY, 2011 This new theory by observation and deduction identifies that consciousness originated from nothing zero at the origin of living cells and progressed in a gradual continuum through plant vegetative to reptiles to mammals to humans illuminating how organisms attained those different levels including the Permanent Access Memory PAM Hypothesis in gaining self consciousness This theory discusses that mammals can only sleep at the level of reptilian consciousness the sleep wake consciousness as the mammalian and human consciousness levels are sharp focused cognitive states at which sleep is impossible Rapid Eye Movement Behavioural Disorder RBD is the first safety net preventing mammals at sleep from falling through the consciousness continuum into coma vegetate consciousness or death and sleepwalking is the last vital safety net if and when RBD fails because even though a necessity for sleep the reptilian consciousness is unsafe for mammals due to the danger of sleeping through the Consciousness Continuum to coma It has now revealed quite unexpectedly the fact that in the state of consciousness referred to as sleepwalking any act of aggression is impossible Key word Consciousness Continuum Updates additions discussions or contributions are available and welcome on www.delaninfadahunsysconsciousness.co.uk
