The Color Of Freedom Race And Contemporary American Liberalism:

The Color of Freedom David Carroll Cochran, 1999-04-23 Using liberal political theory to explore the politics of race in the United States *The Color of Freedom* offers a fresh distinctive and compelling analysis of the country's continuing dilemma of race Cochran develops an argument about how contemporary liberalism understands race what is inadequate about this understanding and how it can develop a better one Sitting at the intersection of theory and practice this book offers an impressive example of how the two must inform each other especially when it comes to opening up new ways of thinking about old and frustrating problems like that of race in American life *Defining Americans* Mary E. Stuckey, 2004 Ranging broadly from Andrew Jackson to Bill Clinton and George W Bush Stuckey demonstrates how presidents accomplish the dual enactment of inclusion and exclusion through their rhetorical and political choices Our early leaders were preoccupied with balancing the growing nation later presidents were concerned with the nature and definitions of citizenship By examining the political speeches of presidents exemplifying distinctly different circumstances she presents a series of snapshots which when taken together reveal both the continuity and the changes in our national self understanding

Nelson Rockefeller's Dilemma Marsha E. Barrett, 2024-08-15 Nelson Rockefeller's Dilemma reveals the fascinating and influential political career of the four time New York State governor and US vice president Marsha E Barrett's portrayal of this multi faceted political player focuses on the eclipse of moderate Republicanism and the betrayal of deeply held principles for political power Although never able to win his party's presidential nomination Rockefeller's tenure as governor was notable for typically liberal policies infrastructure projects expanding the state's university system and investing in local services and the social safety net As the Civil Rights movement intensified in the early 1960s Rockefeller envisioned a Republican Party recommitted to its Lincolnian heritage as a defender of Black equality But the party's extreme right wing encouraged by its successful outreach to segregationists before and after the nomination of Barry Goldwater pushed the party to the right With his national political ambitions fading by the late 1960s Rockefeller began to tack right himself on social and racial issues refusing to endorse efforts to address police brutality accusing without proof Black welfare mothers of cheating the system or introducing harsh drug laws that disproportionately incarcerated people of color These betrayals of his own ideals did little to win him the support of the party faithful and his vice presidency ended in humiliation rather than the validation of moderate ideals An in depth insightful and timely political history *Nelson Rockefeller's Dilemma* details how the standard bearer of moderate Republicanism lost the battle for the soul of the Party of Lincoln leading to mainlining of white grievance populism for the post civil rights era **"Brown" in Baltimore** Howell S. Baum, 2011-01-15 In the first book to present the history of Baltimore school desegregation Howell S Baum shows how good intentions got stuck on what Gunnar Myrdal called the American Dilemma Immediately after the 1954 *Brown v Board of Education* decision the city's liberal school board voted to desegregate and adopted a free choice policy that made integration voluntary Baltimore's

school desegregation proceeded peacefully without the resistance or violence that occurred elsewhere. However, few whites chose to attend school with blacks and after a few years of modest desegregation, schools resegregated and became increasingly segregated. The school board never changed its policy. Black leaders had urged the board to adopt free choice and despite the limited desegregation, continued to support the policy and never sued the board to do anything else. Baum finds that American liberalism is the key to explaining how this happened. Myrdal observed that many whites believed in equality in the abstract but considered blacks inferior and treated them unequally. School officials were classical liberals who saw the world in terms of individuals, not races. They adopted a desegregation policy that explicitly ignored students' race and asserted that all students were equal in freedom to choose schools while their policy let whites who disliked blacks avoid integration. School officials' liberal thinking hindered them from understanding or talking about the city's history of racial segregation, continuing barriers to desegregation and realistic change strategies. From the classroom to city hall, Baum examines how Baltimore's distinct identity as a border city between North and South shaped local conversations about the national conflict over race and equality. The city's history of wrestling with the legacy of Brown reveals Americans' preferred way of dealing with racial issues: not talking about race. This avoidance, Baum concludes, allows segregation to continue.

Race in the Schools Judith R. Blau, 2003 Judith Blau's disturbing study presents strong evidence that our schools, assumed by many to be an equalizing force in U.S. society, are in fact racialized settings that reproduce white advantage to the detriment of all students. Drawing on rich longitudinal databases, Blau explores the values, activities, and educational experiences of a sample of young people born a decade or so after the 1964 Civil Rights Act was signed into law. She focuses on topics that are both important in students' lives and central in schooling: attitudes toward integrity and cheating, getting into trouble, interracial relations, learning and going to college. Her remarkable findings challenge many assumptions long held by researchers and policymakers. **Race in the Schools**, combining an accessible style, sophisticated methodology, and clear policy relevance, is a seminal study of the pervasive consequences of race in the U.S. education system.

Rights, Race, and Recognition Derrick Darby, 2009-04-02 What is the source of rights? Rights have been grounded in divine agency, human nature, and morally justified claims, and have been used to assess the moral status of legal and customary social practices. The orthodoxy is that some of our rights are a species of unrecognized or natural rights. For example, black slaves in antebellum America were said to have such rights, and this was taken to provide a basis for establishing the immorality of slavery. Derrick Darby exposes the main shortcomings of the orthodox conception of the source of rights and proposes a radical alternative. He draws on the legacy of race and racism in the USA to argue that all rights are products of social recognition. This bold, lucid, and meticulously argued book will inspire readers to rethink the central role assigned to rights in moral, political, and legal theory, as well as in everyday evaluative discourse.

Racial Liberalism and the Politics of Urban America Curtis Stokes, Theresa Meléndez, 2003 *Racial Liberalism and the Politics of Urban America* examines the philosophical and political

framework that informs public policy impacting racially and ethnically diverse American cities in the twenty first century In their analyses of the intersection between race and public policy contributors to this volume explore the racial character of historical and contemporary American liberalism and draw upon data from the 2000 U S Census on topics such as healthcare the environment residential segregation and the changing meanings of race Consistent with Michigan State University s Race in 21st Century America Conference project the essays which reflect genuine racial intellectual and ideological diversity explore the idea and consequences of race in the United States and suggest fresh approaches toward overcoming the persistent and deep racial gap in life opportunities between whites and people of color Contributors Katya Gibel Azoulay Khari Brown Ronald E Brown David Carroll Cochran Joe T Darden Reynolds Farley John A Garcia Tamar Jacoby James Jennings Bill E Lawson Charles W Mills Mecke Nagel David N Pellow Richard Schmitt Brian D Smedley Robert C Smith Rogers M Smith Naomi Zack

White Liberal Identity, Literary Pedagogy, and Classic American Realism Phillip Barrish, 2005 *White Liberal Identity Literary Pedagogy and Classic American Realism* brings literary works from the turn of the last century face to face with some of the dilemmas and paradoxes that currently define white liberal identity in the United States Phillip Barrish develops fresh analytic and pedagogical tools for probing contemporary white liberalism while also offering new critical insights and classroom approaches to American literary realism New ground is broken by using bold close analysis of works by canonical American realist writers such as Henry James Edith Wharton Mark Twain and Kate Chopin These contexts include an affirmative action court case the liberal arts classroom and the war on drugs as well as current debates about the United States role on the international scene Invoking a methodology that he calls critical presentism Barrish s book offers a fresh response to that perennial classroom question often posed most forcefully by students committed to progressive political agendas why devote so much time and effort to detailed analyses of canonical American literature This book makes specific contributions not only to American literary and cultural studies but also to critical race theory masculinity studies and critical pedagogy from back cover

Race in 21st Century America Curtis Stokes, Theresa Meléndez, Genice Rhodes-Reed, Gernice Rhodes-Reed, 2001 *Race in 21st Century America* tackles the problematic and emotionally laden idea of race in the United States it brings together intellectuals and scholar activists who present critical and often conflicting appraisals of how race remains a central component of the nation s social landscape and political culture and shows how Americans might begin to move beyond the strictures of race and racism
