**Music and Instruments of the Elizabethan Age** Michael Jonathan Fleming, Michael Fleming, Christopher Page, 2021 Uses the rare depictions of musical instruments and musical sources found on the Eglantine Table to understand the musical life of the Elizabethan age and its connection to aspects of culture now treated as separate disciplines of historical study The reign of Elizabeth I 1558 1603 has often been regarded as the Golden Age of English music Many works of high quality both vocal and instrumental were composed and performed by native and immigrant musicians while balladry and minstrelsy flourished in hall street and alehouse No single source of the sixteenth century presents this rich musical culture more vividly than the inlaid surface of the Eglantine Table This astonishing piece of furniture was made in the late 1560s for the family of Elizabeth or Bess of Hardwick Countess of Shrewsbury 1527 1608 The upper surface bears a wealth of marquetry that depicts amidst the briar roses and other plants numerous Elizabethan musical instruments in exquisite detail together with open books or scrolls of music with legible notation Given that depictions of musical instruments and musical sources are rare in all artistic media of the Elizabethan period the Eglantine Table is a very important resource for understanding the musical life of the age and its connection to aspects of culture now treated separately in disciplines such as art history social and political history or the study of material culture This volume assembles a group of leading scholars in the history of instruments and associated fields to ground future research upon the most expert assessment of the depicted instruments the music and the decorative imagery that is currently attainable A final section of the book takes a broad view placing the Table and the musical components of its decoration in relation to the full range of Elizabethan musical life      **A Performer's**

Lerner, Joseph Straus, 2015-10-15 The Oxford Handbook of Disability Studies represents a comprehensive state of current research for the field of Disability Studies and Music The forty two chapters in the book span a wide chronological and geographical range from the biblical the medieval and the Elizabethan through the canonical classics of the eighteenth and

nineteenth centuries up to modernist styles and contemporary musical theater and popular genres with stops along the way in post Civil War America Ghana and the South Pacific and many other interesting times and places Disability is a broad heterogeneous and porous identity and that diversity is reflected in the variety of bodily conditions under discussion here including autism and intellectual disability deafness blindness mobility impairment often coupled with bodily difference and cognitive and intellectual impairments Amid this diversity of time place style medium and topic the chapters share two core commitments First they are united in their theoretical and methodological connection to Disability Studies especially its central idea that disability is a social and cultural construction Disability both shapes and is shaped by culture including musical culture Second these essays individually and collectively make the case that disability is not something at the periphery of culture and music but something central to our art and to our humanity

Performance and the Middle English Romance  
Linda Marie Zaerr, 2012 An examination of if and how medieval romance was performed uniquely uniting the perspective of a scholar and practitioner Although English medieval minstrels performed gestes a genre closely related to romance often playing the harp or the fiddle the question of if and how Middle English romance was performed has been hotly debated Here the performance tradition is explored by combining textual historical and musicological scholarship with practical experience from a noted musician Using previously unrecognised evidence the author reconstructs a realistic model of minstrel performance showing how a simple melody can interact with the text and vice versa She argues that elements in Middle English romance which may seem simplistic or repetitive may in fact be incomplete as missing an integral musical dimension metrical irregularities for example may be relics of sophisticated rhythmic variation that make sense only with music Overall the study offers both a more accurate comprehension of minstrel performance and a deeper appreciation of the romances

themselves Linda Marie Zaerr is Professor of Medieval Studies at Boise State University

**Memory Ireland** Oona Frawley, 2011-01-05 Despite the ease with which scholars have used the term memory in recent decades its definition remains enigmatic Does cultural memory rely on the memories of individuals or does it take shape beyond the borders of the individual mind Cultural memory has garnered particular attention within Irish studies With its trauma filled history and sizable global diaspora Ireland presents an ideal subject for work in this vein What do stereotypes of Irish memory as extensive unforgiving begrudging but also blank on particular usually traumatic subjects reveal about the ways in which cultural remembrance works in contemporary Irish culture and in Irish diasporic culture How do icons of Irishness from the harp to the cottage from the Celtic cross to a figure like James Joyce function in cultural memory This collection

seeks to address these questions as it maps a landscape of cultural memory in Ireland through theoretical historical literary and cultural explorations by top scholars in the field of Irish studies In a series that will ultimately include four volumes the sixteen essays in this first volume explore remembrance and forgetting throughout history from early modern Ireland to contemporary multicultural Ireland Among the many subjects address Guy Beiner disentangles collective from folk memory in *Remembering and Forgetting the Irish Rebellion of 1798* and Anne Dolan looks at local memory of the Civil war in *Embodying the Memory of War and Civil War* The volume concludes with Alan Titley's *The Great Forgetting* a compelling argument for viewing modern Irish culture as an artifact of the Europeanization of Ireland and for bringing into focus the urgent need for further wide ranging Irish language scholarship

**Inspiration and Authority in the Middle Ages** Brian Daniel FitzGerald, 2017 *Inspiration and Authority in the Middle Ages* rethinks the role of prophecy in the Middle Ages by examining how professional theologians responded to new assertions of divine inspiration Drawing on fresh archival research and detailed study of unpublished manuscript sources from the twelfth to fourteenth centuries this volume argues that the task of defining prophetic authority became a crucial intellectual and cultural enterprise as university trained theologians confronted prophetic claims from lay mystics radical Franciscans and other unprecedented visionaries In the process these theologians redescribed their own activities as prophetic by locating inspiration not in special predictions or ecstatic visions but in natural forms of understanding and in the daily work of ecclesiastical teaching and ministry Instead of containing the spread of prophetic privilege however scholastic assessments of prophecy from Peter Lombard and Thomas Aquinas to Peter John Olivi and Nicholas Trevet opened space for claims of divine insight to proliferate beyond the control of theologians By the turn of the fourteenth century secular Italian humanists could lay claim to prophetic authority on the basis of their intellectual powers and literary practices From Hugh of St Victor to Albertino Mussato reflections on and debates over prophecy reveal medieval clerics scholars and reformers reshaping the contours of religious authority the boundaries of sanctity and sacred texts and the relationship of tradition to the new voices of the Late Middle Ages
