The Matriarchs in Genesis Rabbah Katie J. Woolstenhulme, 2020-12-10 Katie J Woolstenhulme considers the pertinent questions Who were the matriarchs and what did the rabbis think about them Whilst scholarship on the role of women in the Bible and Rabbinic Judaism has increased the authoritative group of women known as the matriarchs has been neglected This volume consequently focuses on the role and status of the biblical matriarchs in Genesis Rabbah the fifth century CE rabbinic commentary on Genesis Woolstenhulme begins by discussing the nature of midrash and introducing Genesis Rabbah before exploring the term the matriarchs and its development through early exegetical literature culminating in the emergence of two definitions of the term in Genesis Rabbah the matriarchs as the legitimate wives of Israel s patriarchs and the matriarchs as a reference to Jacob s four wives who bore Israel s tribal ancestors She then moves to discuss the matriarchal cycle in Genesis Rabbah with its three stages of barrenness motherhood and succession Finally Woolstenhulme considers Genesis Rabbah s portrayal of the matriarchs as representatives of the female sex exploring positive and negative rabbinic attitudes towards women with a focus on piety prayer praise beauty and sexuality and the matriarchs exemplification of stereotypical negative female traits This volume concludes that for the ancient rabbis the matriarchs were the historical mothers of Israel bearing covenant sons but also the present mothers of Israel continuing to influence Jewish identity

Transport in the Asia Pacific David Timothy Duval,2016-03-16 Air transport in the Asia Pacific has undergone significant
transformation in the last three decades What was once a region in the shadow of larger and more prosperous continents
such as North America and Europe is now at the forefront of expansion in commercial air service networks frequency and
capacity and the overall growth in the contribution of air transport to economies on regional and in many cases individual
country levels Despite this it represents an area that is generally under represented in the commercial air transport
academic literature Air Transport in the Asia Pacific seeks to fill this gap Against this context the aim of the volume is to offer
a contemporary snapshot of current academic research into commercial air transport in the Asia Pacific While one volume
cannot realistically address the complete range of identifiable issues this book provides timely specific and research based
