The Laments Of Jeremiah And Their Contexts:

The Laments of Jeremiah and Their Contexts Mark S. Smith, 1990 **Jeremiah's Scriptures** Hindy Najman, Konrad Schmid, 2016-10-05 Jeremiah's Scriptures focuses on the composition of the biblical book of Jeremiah and its dynamic afterlife in ancient Jewish traditions Jeremiah is an interpretive text that grew over centuries by means of extensive redactional activities on the part of its tradents In addition to the books within the book of Jeremiah other books associated with Jeremiah or Baruch were also generated All the aforementioned texts constitute what we call Jeremiah's Scriptures The papers and responses collected here approach Jeremiah's scriptures from a variety of perspectives in biblical and ancient Jewish sub fields One of the authors goals is to challenge the current fragmentation of the fields of theology biblical studies ancient Judaism This volume focuses on Jeremiah and his legacy Lament in the Letter of James Grant Flynn, 2025-08-14 In Lament in the Letter of James Grant Flynn presents the first book length study of lament in James After exploring the contours and development of Old Testament lament Flynn examines the lament material in James including a reference to an act of lament allusions to Old Testament laments and exhortations to lament The author then proposes that the choice to use Job as a model of perseverance implies that Job's lament shaped perseverance informs James's understanding of the virtue By rereading the epistle's opening call to consider trials as pure joy with this Joban perseverance in mind Flynn concludes that James envisions an ongoing cycle of lament and joy that reflects both the pain of human suffering and the hope of eschatological perfection The Theology of the Book of Jeremiah Walter Brueggemann, 2006-11-13 The present study focuses on the theology of the Book of Jeremiah That theology revolves around themes familiar from Israel's covenantal faith especially the sovereignty of YHWH expressed in judgment and promise The outcome of this theological nexus of context person and tradition is a book that moves into the abyss and out of the abyss in unexpected ways It does so in part by asserting that God continues to be generatively and disturbingly operative in the affairs of the world up to and including our contemporary abysses such as 9 11 The God attested in the Book of Jeremiah invites its readers into and through any and all such dislocations to new futures that combine divine agency and human inventiveness rooted in faithfulness *Jeremiah Under the Shadow of Duhm* Joseph M. Henderson, 2019-11-14 Joe Henderson offers a critique of the assumption that poetic form in the book of Jeremiah indicates authenticity This assumption undergirds Bernhard Duhm's reconstructions 1901 of the prophet's biography and the book's composition the basic components of the dominant paradigm for twentieth century Jeremiah scholarship Henderson argues that Duhm's model is best understood as an attempt to bring the book into conformity with nineteenth century systems of aesthetics historiography and theology and with the Grafian reconstruction of the history of Israel's religion The accord between these systems and Duhm's assumption about poetic form has less to do with their common grasp of the historical reality of Hebrew prophecy than with their common roots in the Romantic theory of prophetic and poetic inspiration a theory forged by Robert Lowth in his exposition 1752 of the poetry he found in the

prophetic books Henderson contends that continued adherence to Duhm's foundational assumption has held back recent attempts to move beyond Duhm and overcome the fragmentation of the book entailed by his model. Rhetorical critics who maintain that Jeremiah 2-10 is unified by the structural devices of the historical prophet and redaction critics who maintain that Jeremiah 11-20 is unified by the theological agenda of Deuteronomistic editors both rely on the assumed authenticity of the poetry. Henderson observes that although these scholars have uncovered evidence of dramatic presentation in Jeremiah 2-20 they have failed to see that the dramatic nature of these chapters undermines their use for Duhm's historical critical projects and reveals what actually unifies them: narrative progression.

Seeking the Favor of God: The origins of penitential prayer in Second Temple Judaism Mark J. Boda, Daniel K. Falk, Rodney Alan Werline, 2006 Paperback edition available from the Society of Biblical Literature www.sbl-site.org

A Severe Mercy Mark J. Boda, 2009-06-30 The biblical theological approach Boda takes in this work is canonical thematic tracing the presentation of the theology of sin and its remedy in the canonical form and shape of the Old Testament. The hermeneutical foundations for this enterprise have been laid by others in past decades, especially by Brevard Childs in his groundbreaking work *But a Severe Mercy*. Boda also reflects recent approaches to integrating biblical understanding with other methodologies in addition to Childs's. Thus it enters the imaginative space of the ancient canon of the Old Testament in order to highlight the word views and literary shapes of the texts taken individually and as a whole collection. For the literary shape of the individual texts it places the word views of the dominant expressions and images as well as various passages in the larger context of the biblical books in which they are found. For the literary shape of the texts as a collection it identifies key subthemes and traces their development through the Old Testament canon. The breadth of Boda's study is both challenging and courageous, resulting in the first comprehensive examination of the topic in the 21st century.

Dictionary of the Old Testament: Prophets G. M. McCool, Mark J. Boda, 2020-05-21 The writings of the prophets make up over a quarter of the Old Testament. But perhaps no other portion of the Old Testament is more misunderstood by readers today. For some, prophecy conjures up knotted enigmas, opaque oracles, and terrifying visions of the future. For others, it raises expectations of a plotted-out future to be reconstructed from disparate texts. And yet the prophets have imprinted the language of faith and imagination with some of its most sublime visions of the future: nations streaming to Zion, a lion lying with a lamb, and endlessly fruiting trees on the banks of a flowing river. We might view the prophets as stage directors for Israel's unfolding drama of redemption. Drawing inspiration from past acts in that drama and invoking fresh words from its divine author, these prophets speak a language of sinewed poetry: their words and

images arresting the ear and detonating in the mind For when Yahweh roars from Zion and thunders from Jerusalem the pastures of the shepherds dry up the crest of Carmel withers and the prophetic word buffets those selling the needy for a pair of sandals The Dictionary of the Old Testament Prophets is the only reference book of its kind Not only does it focus exclusively on the prophetic books it also plumbs their imagery of mountains and wilderness flora and fauna temple and Zion It maps and guides us through topics such as covenant and law exile and deliverance forgiveness and repentance and the Day of the Lord Here the nature of prophecy is searched out in its social historical literary and psychological dimensions as well as its synchronic spread of textual links and associations And the formation of the prophetic books into their canonical collection including the Book of the Twelve is explored and weighed for its significance Then too contemporary approaches such as canonical criticism conversation analysis editorial redaction criticism feminist interpretation literary approaches and rhetorical criticism are summed up and assayed Even the afterlife of these great texts is explored in articles on the history of interpretation as well as on their impact in the New Testament

Theology in Language, Rhetoric, and Beyond Jack R Lundbom, 2015-02-26 Theology in Language Rhetoric and Beyond places before a broad audience of students and general readers theological essays on both the Old and New Testaments Theology is seen to derive from a number of sources the biblical language biblical rhetoric and composition academic disciplines other than philosophy and above all a careful exegesis of the biblical text The essay on Psalm 23 makes use of anthropology and human development theory the essay on Deuteronomy incorporates Wisdom themes the essay called Jeremiah and the Created Order looks at ideas not only about God and creation but also about the seldom considered idea of God and a return to chaos and the essay on the Confessions of Jeremiah examines not the words that this extraordinary prophet was given by God to preach but what he himself felt and experienced in the office to which he was called One essay on Biblical and theological themes includes a translation into the African language of Lingala which weaves together the story of early Christianity with the more recent founding of churches in Africa and Asia Jack R Lundbom argues eloquently through these essays that theology is rooted in biblical words in themselves in rhetoric and their different contexts
