The Past Within Us An Empirical Approach To Philosophy Of History:

The Past Within Us Raymond Martin, 2014-07-14 Why do we interpret the past as we do rather than in some other way or not at all What is the significance of the fact that we interpret the past What are historical interpretations Raymond Martin's approach to these questions transcends both the positivist and humanistic perspectives that have polarized Anglo American philosophy of history Martin goes to the source of this polarization by diagnosing a deep seated flaw in the dominant analytic approach during the period from 1935 to 1975 namely the emphasis on conceptual analysis rather than the examination of actual historical controversies As an alternative Martin proposes an empirical approach that examines what makes one historical interpretation better than its competitors In addressing how historians should decide which explanations are better Martin opts for a case by case analysis of historiographical practice as opposed to establishing general criteria His book offers several detailed case studies involving such topics as the collapse of Lowland Maya civilization in the ninth century A D the fall of Rome and the alleged historical priority of St Mark's gospel over the other synoptic gospels Originally published in 1989 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

A Companion to the Philosophy of History and Historiography Aviezer Tucker, 2011-06-28 A COMPANION TO THE PHILOSOPHY OF HISTORY AND HISTORIOGRAPHY The philosophy of historiography examines our representations and knowledge of the past the relation between evidence inference explanation and narrative Do we possess knowledge of the past Do we just have probable beliefs about the past or is historiography a piece of convincing fiction The philosophy of history is the direct philosophical examination of history whether it is necessary or contingent whether it has a

direction or whether it is coincidental and if it has a direction what it is and how and why it is unfolding The fifty entries in this Companion cover the main issues in the philosophies of historiography and history including natural history and the practices of historians Written by an international and multi disciplinary group of experts these clearly written entries present a cutting edge updated picture of current research in the philosophies of historiography and history This Companion will be of interest to philosophers historians natural historians and social scientists

Historical Judgement Jonathan Gorman, 2014-11-27 The historical profession is not noted for examining its own methodologies Indeed most historians are averse to historical theory In Historical Judgement Jonathan Gorman s response to this state of affairs is to argue that if we want to characterize a discipline we need to look to persons who successfully occupy the role of being practitioners of that discipline So to model historiography we must do so from the views of historians Gorman begins by showing what it is to model a discipline by using recent philosophy of law and philosophy of science There are different models at work whose rivalry and resolution are to be historically understood With this approach in place he is able to develop the history of historiography and explore the character of historiography as presented by historians He reveals that historians conform to various norms that historians now and in the past have agreed and disagreed about the same set of interrelated matters truth telling moral judgement and the synthesis of facts and it is this internal understanding that we need to recover if we are to arrive at a correct characterization of the discipline of historiography Demonstrating how the practice of historiography requires choices and therefore the exercise of judgement Gorman is able to show that in their making of judgements historians enjoy the immense benefit of hindsight He shows how in reflecting on their own discipline historians have typically failed to attend adequately to the history of historiography neglecting to situate previous historians within their historical contexts or to pay adequate attention to the fact that present historians too are within a context that will change In addition Gorman s approach which emphasizes the power and necessity of choice and which rests on the pragmatic holistic empiricism of Quine shows postmodernism not to be the threat that some historians feel it to be indeed it is shown to be a radical form of empiricism Gorman shows how the historical enterprise may be established in our factual and moral understanding in the light of our choices and commitments to a shared world Historical Judgement is an original and important contribution to the philosophy of history By bringing together the ideas of historians and philosophers Gorman presents a much more practitioner focused examination of the discipline of history one that will hopefully encourage

historians to think more about the nature of what they do Reconstructing Contexts Robert D. Hume,1999 This book attempts to justify and theorize old historicism defining archaeo historicism as a method by which scholars can reconstruct past context in order to apply it to the interpretation of works and events of that time If such reconstruction is to be more than wildly impressionistic it must be grounded in hard evidence handled according to clear rules In this intriguing and rigorous analysis Robert Hume identifies legitimate objects for reconstruction and proposes procedures and principles by which such interpretation may be pursued He then examines the failures of the same method which works only when adequate evidence can be found In particular Hume flatly denies the intellectual legitimacy of literary history as it is commonly practised and attempts to disentangle such history from the practice of historicism The final chapter is devoted to a cogent discussion of how archaeo historicism relates to various forms of contemporary theory Hume offers a profusion of examples of good and bad historicist reconstruction and interpretation drawing largely on English literature but also on American and other world literatures theatre history and music theory Although addressed primarily to literary critics this wide ranging and bold work will be of interest to historians and cultural critics as well **Action as History** Stein Helgeby,2016-03-03 R G Collingwood s philosophy of history reflected his historical practices and his moral philosophy Reflection on historical practice provided him with a theory of knowledge his moral philosophy provided him with a theory of the object of history This study shows how Collingwood s concepts of action and history developed together **The Study of History** ,2000 History is a subject which never stands still It is always changing its philosophies its contours its leading questions its politics its conceptual status and its methodologies This bibliographical guide to the study of history is wide ranging in scope extending from the ancient world to the 20th century It deliberately concentrates on modern historians views provides a substantial section on the philosophy of history charts controversies and highlights the continual evolution and diversification of history The material is logically organized in major areas and subsections and cross references are given where appropriate An index of authors editors and compilers is also provided Global Governance Timothy J. Sinclair,2004 *A New Philosophy of History* Frank Ankersmit,Hans Kellner,2013-06-01 What is history From Thucydides to Toynbee historians and nonhistorians alike have wondered how to answer this question A New Philosophy of History reflects on developments over the last two decades in historical writing not least the renewed interest in the status of narrative itself and the presence of the authorial voice Subjects include the problems of Grand Narrative multiple voices and the personal presence of the historian in his text the ambitions of the French Annales school and the so called Grand Chronicler and the relevance of non literary models museum presentations and picturings regarding historical discourse The range of approaches found in A New Philosophy of History ensures that this book will establish itself as required reading not only for historians but for everyone interested in literary theory philosophy or cultural studies This volume presents essays by Hans Kellner Nancy F Partner Richard T Vann Arthur C Danto Linda Orr Philippe Carrard Ann Rigney Allan Megill Robert
