The Peirce Seminar Papers ,1998 **Song and Significance** Dinda L. Gorrée,2005 Vocal translation is an old art but the interpretive feeling skill and craft have expanded into a relatively new area in translation studies Vocal translation is the translation of the poetic discourse in the hybrid art of the musicopoetic or poeticomusical forms shapes and skills This symbiotic construct harmonizes together the conflicting roles of music and language in face to face singing performances In opera folksong hymn and art song as well as in operetta musical song and popular song we have musical genres allied to a libretto with lyrical text A libretto is a linguistic text which is a pre existing work of art but is subordinated to the musical text The essays in this volume provide interpretive models for the juxtaposition of different orders of the singing sign events in different languages extending the meaning and range of the musical and literary concepts and putting the mixed signs to a true and false test **Archaeological Semiotics** Robert W. Preucel,2010-04-26 This interdisciplinary book examines archaeology's engagement with semiotics from its early structuralist beginnings to its more recent Peircian encounters It represents the first sustained engagement with Peircian semiotics in archaeology as well as the first discussion of how pragmatic anthropology articulates with anthropological archaeology Its central thesis is that archaeology is a distinctive kind of semiotic enterprise one devoted to giving meaning to the past in the present through the study of materiality It compliments standard studies of linguistics and reformulates contemporary theories of material culture Providing an introduction to Saussure and a review of his legacy across structural symbolic and cognitive anthropology Preucel goes on to present the Peircian alternative and highlights its influence on pragmatic anthropology Of special interest are the discussions of the interrelations of structuralism and processual archaeology poststructuralism and postprocessual archaeologies and cognitive science and cognitive archaeology The author offers two original case studies demonstrating how material culture pragmatically mediates social relations one focusing on the aftermath of the Pueblo Revolt from 1680 1694 and the other on the New England utopian community of Brook Farm from 1842 1846 Throughout his analysis Preucel emphasizes the close links between archaeology and other social sciences But he also contends that archaeology by virtue of the powerful ideological character of the past can open up new spaces for discourse and dialogue about meaning and in the process make a valuable contribution to contemporary semiotics Subject Guide to Books in Print ,1991 American Book Publishing Record ,1998 Tolstoy Studies Journal ,1998 Forthcoming Books Rose Army,1998-06 Arts & Humanities Citation Index ,2001 Current Contents.
