The Passive Eye Gaze And Subjectivity In Berkeley Via Beckett:

The Passive Eye Branka Arsić, 2003 *The Passive Eye* is a revolutionary and historically rich account of Berkeley's theory of vision. In this formidable work, the author considers the theory of the embodied subject and its passions in light of a highly dynamic conception of infinity. Arsić shows the profound affinities between Berkeley and Spinoza and offers a highly textual reading of Berkeley on the concept of an exhausted subjectivity. The author begins by following the Renaissance universe of vision, particularly the paradoxical elusive nature of mirrors, then shows how this conception of vision was translated into the optical devices and in what way the various ways of deception could be conceived. Reading Berkeley against the backdrop of competing theories in relation to Leibniz, Spinoza, Newton, Malebranche, Hume, Locke, Molyneux and others, this book gives a meticulous historic reconstruction of Berkeley's theory. This excellent scholarly work presents Berkeley's theory in a new and radical light. The book is presented in three parts: begins by presenting the conceptions of vision prior to Berkeley's intervention; in the second part, the author moves through a careful study of Descartes' theory of vision to arrive at Berkeley; the third part addresses the author's version of Berkeley in which the eye and the image become inseparable due to the collapse of the universe of representation. The problem of vision becomes not that of representation but of presentation. Through an erudite historic reading of Berkeley's theory and astute comparative assessments, the author uncovers Berkeley's place as a contemporary theoretician corresponding with such thinkers as Deleuze, Lacan, Foucault and Derrida. *The Passive Eye*

empiricist philosopher He approaches Berkeley's thought from the standpoint of its roots rather than from how this thought has been viewed since his time In Bradatan's portrait we can see two Berkeleys quite distinct from one another This other Berkeley read and wrote alchemical books designed utopian projects and searched for Happy Islands and the Earthly Paradise His new attitude toward the material world echoed the dualistic theology of the Cathars The thinking of the other Bishop Berkeley was rooted in Platonic mystical and sometimes esoteric traditions and he saw philosophy as above all a kind of salvation to be practiced as a way of life What Bradatan uncovers is a much richer true to life Berkeley a more profound and spectacular thinker This book will interest scholars working in a wide variety of fields from philosophy and the history of ideas to comparative literature utopian studies religious and medieval studies and critical theory Recovering Bishop Berkeley S. Breuninger, 2010-04-26 Through a close analysis of key texts and the larger historical contexts within which they were composed this study explores George Berkeley's engagement with the social and economic threats facing Ireland and Britain highlighting his belief that virtue and religion could play crucial roles in alleviating these problems **Passive Constitutions or 7 1/2 Times Bartleby** Branka Arsić, 2007 Through analysis of Melville's Bartleby the Scrivener this book analyzes major questions in Melville's literature as well as philosophical theological political juridical psychiatric and literary discourses of his age and the America in which he lived *On Leaving* Branka Arsić, 2010-04-15 Arsić unpacks Ralph Waldo Emerson's repeated assertion that our reality and our minds are in constant flux Her readings of a broad range of Emerson's writings are guided by a central question what does it really mean to maintain that everything fluctuates is relational and so changes its identity Time's Fool A.
