How Power Works in Schools and Why It Matters for Maximizing Students' Learning Jacob W. Neumann, 2024-02-02 People typically misunderstand how power works in schools Common thinking says that things like high stakes testing school reform efforts and political mandates exert the most power on schools The reality however is that power comes from everywhere It isn t a thing that only certain people possess nor does it operate linearly as in simple actions and reactions Instead power acts more like a web if you exert power in one part of a school the effects often spread across the rest of it The usual emphasis on big easy to see influences causes schools to focus on the wrong concerns the big public ones instead of the ones which make the most impact the small daily ones This book examines everyday phenomena inside schools to reveal the complexity and nuance of power and makes practical suggestions for how schools can manage power more effectively to maximize students learning *The Believe* Zahiruddin Ali
