Somoza Falling A Case Study Of Washington At Work

Sebastian Brünink

Somoza Falling A Case Study Of Washington At Work:

Somoza Falling Anthony Lake,1990 Carefully examines how our policy toward Nicaragua in 1978-89 emerged describes the characteristics of the middle players in this decision making process and discusses the complexities which govern their two important groups career officers and political appointees The result is an insightful objective and clear account based in part on frank interviews and personal experiences that illustrates both policy making groups paradoxical positions and offers precise lessons to be learned from past dealings with Third World revolutions Library Journal [The Twilight Struggle](#) Hal Brands,2022-01-25 A leading historian's guide to great power competition as told through America's successes and failures in the Cold War If you want to know how America can win today's rivalries with Russia and China read this book about how it triumphed in another twilight struggle the Cold War Stephen J Hadley national security adviser to President George W Bush The United States is entering an era of great power competition with China and Russia Such global struggles happen in a geopolitical twilight between the sunshine of peace and the darkness of war In this innovative and illuminating book Hal Brands a leading historian and former Pentagon adviser argues that America should look to the history of the Cold War for lessons in how to succeed in great power rivalry today Although the threat posed by authoritarian powers is growing America's muscle memory for dealing with dangerous foes has atrophied in the thirty years since the Cold War ended In long term competitions where the diplomatic jockeying is intense and the threat of violence is omnipresent the United States will need all the historical insight it can get Exploring how America won a previous twilight struggle is the starting point for determining how America can successfully prosecute another high stakes rivalry today *Inside The Volcano* Frederick Stirton Weaver,2018-02-19 This book provides a historical background to recent Central American social unrest repression and revolution to help readers engage in current arguments claims and debates in a critically and historically informed manner **U. S. Intervention and Regime Change in Nicaragua** Mauricio Solaun,2021-08-05 As President Carter's ambassador to Nicaragua from 1977-1979 Mauricio Solaun witnessed a critical moment in Central American history In *U S Intervention and Regime Change in Nicaragua* Solaun outlines the role of U S foreign policy during the Carter administration and explains how this policy with respect to the Nicaraguan Revolution of 1979 not only failed but helped impede the institutionalization of democracy there Late in the 1970s the United States took issue with the Nicaraguan dictator Anastasio Somoza Moral suasion economic sanctions and other peaceful instruments from Washington led to violent revolution in Nicaragua and bolstered a new dictatorial government A U S supported counterrevolution formed and Solaun argues that the United States attempts to this day to determine who rules Nicaragua Solaun explores the mechanisms that kept Somoza's poorly legitimized regime in power for decades making it the most enduring Latin American authoritarian regime of the twentieth century Solaun argues that continual shifts in U S international policy have been made in response to previous policies that failed to produce U S friendly international environments His historical survey of these policy shifts provides a

window on the working of U S diplomacy and lessons for future policy making Historical Dictionary of the Carter Era Diane Kaufman, Scott Kaufman, 2013 James Earl Carter Jr better known as Jimmy Carter was not the greatest or most popular president of the United States but he did accomplish quite a lot in the fields of civil rights energy and foreign policy during his term from 1977 to 1981 However the economy fared badly and he lost face in his dealings with Iran So when he left after one term he was not greatly missed or so it seemed For after the presidency he made an amazing comeback as a diplomat and trouble shooter in international crises becoming an amazing ex president And even the earlier views of his presidency have been improving at least he did not get the country into a war This rather special trajectory is explained in the Historical Dictionary of the Carter Era with an obvious focus on his term as president His run for the presidency and what he did during his term in office is traced carefully by the chronology The introduction takes a longer view and also puts events in a broader context Then the dictionary section with hundreds of detailed and cross referenced entries tells us more about his policy in various fields but also how America changed culturally and socially during this period The extensive bibliography points toward further information although this book is certainly a good starting point and also a place to refresh one's memory

US Foreign Policy and Democracy Promotion Michael Cox, Timothy J. Lynch, Nicolas Bouchet, 2013-04-17 The promotion of democracy by the United States became highly controversial during the presidency of George W Bush The wars in Iraq and Afghanistan were widely perceived as failed attempts at enforced democratization sufficient that Barack Obama has felt compelled to downplay the rhetoric of democracy and freedom in his foreign policy This collection seeks to establish whether a democracy promotion tradition exists or ever existed in US foreign policy and how far Obama and his predecessors conformed to or repudiated it For more than a century at least American presidents have been driven by deep historical and ideological forces to conceive US foreign policy in part through the lens of democracy promotion Debating how far democratic aspirations have been realized in actual foreign policies this book draws together concise studies from many of the leading academic experts in the field to evaluate whether or not these efforts were successful in promoting democratization abroad They clash over whether democracy promotion is an appropriate goal of US foreign policy and whether America has gained anything from it Offering an important contribution to the field this work is essential reading for all students and scholars of US foreign policy American politics and international relations **The Sandinista Revolution**

Mateo Jarquín, 2024-04-30 The Sandinista Revolution and its victory against the Somoza dictatorship in Nicaragua gripped the United States and the world in the 1980s But as soon as the Sandinistas were voted out of power in 1990 and the Iran Contra affair ceased to make headlines it became in Washington at least a thing of the past Mateo Jarquín recenters the revolution as a major episode in the history of Latin America the international left and the Cold War Drawing on research in Nicaragua Cuba Mexico Panama and Costa Rica he recreates the perspective of Sandinista leaders in Managua and argues that their revolutionary project must be understood in international context Because struggles over the Revolution unfolded

transnationally the Nicaraguan drama had lasting consequences for Latin American politics at a critical juncture It also reverberated in Western Europe among socialists worldwide and beyond illuminating global dynamics like the spread of democracy and the demise of a bipolar world dominated by two superpowers Jarqu n offers a sweeping analysis of the last left wing revolution of the twentieth century an overview of inter American affairs in the 1980s and an incisive look at the making of the post Cold War order

Guide to the White House Staff Shirley Anne Warshaw,2013-03-27 Guide to the White House Staff is an insightful new work examining the evolution and current role of the White House staff It provides a study of executive legislative relations organizational behavior policy making and White House cabinet relations The work also makes an important contribution to the study of public administration for researchers seeking to understand the inner workings of the White House In eight thematically arranged chapters Guide to the White House Staff Reviews the early members of the White House staff and details the need statutory authorization and funding for staff expansion Addresses the creation of the Executive Office of the President EOP and a formal White House staff in 1939 Explores the statutes executive orders and succession of reorganization plans that shaped and refined the EOP Traces the evolution of White House staff from FDR to Obama and the specialization of staff across policy and political units Explores how presidential transitions have operated since Eisenhower created the position of chief of staff Explains the expansion of presidential in house policymaking structures beginning with national security and continuing with economic and domestic policy Covers the exodus of staff and the roles remaining staff played during the second terms of presidents Examines the post White House careers of staff Guide to the White House Staff also provides easily accessible biographies of key White House staff members who served the presidencies of Richard M Nixon through George W Bush This valuable new reference will find a home in collections supporting research on the American presidency public policy and public administration

Falling Friends Martin Staniland,2019-04-08 For U S policymakers the collapse of governments headed by good friends of the United States has been over the past thirty years a repeated cause of alarm and embarrassment Such crises of succession have implications not only for U S foreign policy but also for recent and forthcoming changes in Eastern Europe and the Soviet Union Martin Staniland draws together extended case studies illustrating regime change and shows how each crisis resembles the others in its phases of development from the status quo to the attack phase and ultimately to negotiating the succession In the process students get to know the history culture and personalities involved from Batista and Eisenhower to Marcos and the Reagan administration As in every volume in the Case Studies in International Affairs series this volume opens with an introduction that taps into current theoretical debates in international relations while giving students a framework for understanding and comparing the cases that follow Individual introductions to each case place the study in context and discussion questions and exercises are strategically interjected throughout to encourage students to explore the issues and to assess the choices facing policymakers

Wars of Latin America, 1948-1982 René De La Pedraja,2013-04-17 This book

continues the narrative begun by the author in Wars of Latin America 1899 1941 It provides a clear and readable description of military combat occurring in Latin America from 1948 to the start of 1982 In an unusual peaceful lull Latin America experienced no wars from 1942 to 1947 Although the text concentrates on combat narrative matters of politics business and international relations appear as necessary to explain the wars The author draws on many previously unknown sources to provide information never before published The book traces the many insurgencies in Latin America as well as conventional wars Among the highlights are the chapters on the Cuban and Nicaraguan insurrections and on the Bay of Pigs invasion One goal of the text is to explain why of the many insurgencies appearing in Latin America only those in Cuba and Nicaragua were successful in overthrowing governments The book also helps explain why even unsuccessful insurgencies have survived for decades as has happened in Colombia and Peru Instructors considering this book for use in a course may request an examination copy here [United States Policy in Latin America](#) John D. Martz,1995-01-01 Companion volume to superb work edited by Martz 1988 which follows its excellent example Thirteen prominent scholars offer important critique of US policy exploring processes key bilateral relations and critical problems in context of dramatically changing Latin American and evolving post Cold War period Handbook of Latin American Studies v 57 **Doing Business In Latin America** John E. Spillan,Nicholas Virzi,Mauricio Garita,2014-04-03 Success in today s globalized business environment requires deep knowledge of varied areas and the willingness to engage in commerce not just across geographic areas but cross culturally and environmentally as well Doing Business in Latin America offers an in depth look at a complex region integrating practitioners and scholars ideas to examine business conducted in Latin America through the lens of international business and globalization The book introduces discusses and explains in detail the historical economic cultural political and technological impacts of globalization and business conduct in Latin American countries It also considers the contemporary business environment of the area looking at how current country and regional factors have affected the process of starting and operating businesses Finally it looks forward to the emerging trends that portend the future of business in these countries With its combination of contemporary analysis and historical discussion this book is a vital tool to all scholars and practitioners with an interest in the opportunities offered by the current Latin American business environment

Bureaucratic Politics and Foreign Policy Morton H. Halperin,Priscilla Clapp,2007-02-01 The first edition of Bureaucratic Politics and Foreign Policy is one of the most successful Brookings titles of all time This thoroughly revised version updates that classic analysis of the role played by the federal bureaucracy civilian career officials political appointees and military officers and Congress in formulating U S national security policy illustrating how policy decisions are actually made Government agencies departments and individuals all have certain interests to preserve and promote Those priorities and the conflicts they sometimes spark heavily influence the formulation and implementation of foreign policy A decision that looks like an orchestrated attempt to influence another country may in fact represent a shaky compromise between rival

elements within the U S government The authors provide numerous examples of bureaucratic maneuvering and reveal how they have influenced our international relations The revised edition includes new examples of bureaucratic politics from the past three decades from Jimmy Carter s view of the State Department to conflicts between George W Bush and the bureaucracy regarding Iraq The second edition also includes a new analysis of Congress s role in the politics of foreign policymaking

Small Press ,1990

A Twilight Struggle Robert Kagan,1996 Kagan contends that the Carter administration s halfhearted intervention in Nicaragua was in response to American feelings of guilt for Washington s longtime support of the Somoza dynasty The Reagan era intervention on the other hand originated in American anxiety over Soviet encroachment in the Western hemisphere Kagan recounts how American popular aversion to the employment of U S military muscle in Central America led to the administration s covert support of the contras and goes on to explain how the clash between the Reagan White House and Congress over freedom fighter funding led to the Iran contra affair in 1987 Although the surprising electoral victory of Violeta Chamorro over the Sandinistas was widely recognized as a success for American policy the U S remains caught in a continuous cycle of intervention and withdrawal in Nicaragua according to Kagan As a member of the State Department s Policy Planning Staff Kagan was a direct participant in many of the events described in this authoritative and definitive account of U S Publisher s description

Latin America Juan Manuel Pérez,2004 This is a general bibliography on Latin America covering a wide variety of subjects from pre Columbian civilizations to Columbus to Castro to the foreign debt to pollution ect This work will not only be of use to the general casual reader on Latin America but also to the more specialized researcher The book contains over 800 topics with over 8 000 titles identified

Turf War Timothy J. Lynch,2019-05-23 First published in 2004 this provocative and remarkable book is the first significant study of how the Clinton administration revolutionized US policy toward Northern Ireland in the 1990s Based on interviews with the major actors in the episode Timothy Lynch examines in detail how the internal American turf war fought over Northern Ireland shaped the quality and character of US engagement Turf War will be essential reading for all those seeking to understand American policy toward Northern Ireland the institutional dynamics of US foreign policy after the cold war the perils of locking terrorists into a democratic process and US interventions more broadly

Famous Assassinations in World History Michael Newton,2014-04-17 Representing a unique reference tool for readers interested in history criminology or terrorism this book provides the most complete and up to date coverage of assassinations of key figures throughout history and around the world Effecting the death of a political figure a leader of a nation or a public figure usually captures people s attention But how often is assassination effective to achieve the larger objective beyond the death of the targeted individual Famous Assassinations in World History An Encyclopedia offers more than 200 entries on assassinations of all kinds that will allow readers to grasp the often complex motivating factors behind each event and better understand historical and contemporary social unrest Each entry identifies the assassination target and summarizes that

person's significance discusses the person's assassination including the factors that led up to it and its political and cultural contexts and explains the powerful effects of the assassination in world history. The encyclopedia also includes various sidebars that spotlight relevant individuals, groups and movements and present intriguing factoids such as the final disposition of notorious assassins' weapons and various films and novels that were inspired by famous assassinations. In addition, 23 primary source documents provide accounts of assassinations throughout world history.

Latin America's Cold War Hal Brands, 2012-03-05 For Latin America the Cold War was anything but cold. Nor was it the so-called long peace afforded the world's superpowers by their nuclear standoff. In this book the first to take an international perspective on the postwar decades in the region, Hal Brands sets out to explain what exactly happened in Latin America during the Cold War and why it was so traumatic. Tracing the tumultuous course of regional affairs from the late 1940s through the early 1990s, Latin America's Cold War delves into the myriad crises and turning points of the period: the Cuban revolution and its aftermath, the recurring cycles of insurgency and counterinsurgency, the emergence of currents like the National Security Doctrine, liberation theology and dependency theory, the rise and demise of a hemispheric diplomatic challenge to U.S. hegemony in the 1970s, the conflagration that engulfed Central America from the Nicaraguan revolution onward, and the democratic and economic reforms of the 1980s. Most important, the book chronicles these events in a way that is both multinational and multilayered, weaving the experiences of a diverse cast of characters into an understanding of how global, regional and local influences interacted to shape Cold War crises in Latin America. Ultimately, Brands exposes Latin America's Cold War as not a single conflict but rather a series of overlapping political, social, geostrategic and ideological struggles whose repercussions can be felt to this day.

International Encyclopedia of Terrorism Martha Crenshaw, John Pimlott, 2015-04-22 This timely reference book places the growing 20th-century phenomenon of terrorism in an historical context. Starting with the use of assassination in Ancient Greece and including the recent bombing of the American military complex in Dhahran, Saudi Arabia, this encyclopedia covers the globe in its presentation of all aspects of terrorism: history, theories, types of and responses to, as well as methods and techniques. There is a chronology of major terrorist events from 1945, an A to Z listing of terrorist groups and leaders, a select bibliography and indexes, general name and geographical

Thank you unconditionally much for downloading **Somoza Falling A Case Study Of Washington At Work**.
