Anti-Arminians Stephen Hampton,2008-05-29 This book is a study of the Anglican Reformed tradition often inaccurately described as Calvinist after the Restoration Hampton sets out to revise our picture of the theological world of the later Stuart period Arguing that the importance of the Reformed theological tradition has frequently been underestimated his study points to a network of conforming reformed theologians which included many of the most prominent churchmen of the age Focussing particularly on what these churchmen contributed in three hotly disputed areas of doctrine justification the Trinity and the divine attributes he argues that the most significant debates in speculative theology after 1662 were the result of the Anglican Reformed resistance to the growing influence of continental Arminianism Hampton demonstrates the strength and flexibility of the Reformed response to the developing Arminian school and shows that the Reformed tradition remained a viable theological option for Anglicans well into the eighteenth century This study therefore provides a significant bridge linking the Reformed writes of the Elizabethan and early Stuart periods to the Reformed Evangelicals of the eighteenth

century It also shows that throughout its formative period Anglicanism was not a monolithic tradition but rather a contested ground between the competing claims of those adhering to the Church of England's Reformed doctrinal heritage and the insights of those who to varying degrees were prepared to explore new theological avenues *A Son's Return* Sterling A. Brown, 1996 Essays on African American politics literature and music by Sterling A Brown 1901 1989 which point out the biases against black Americans in white cultural expression and argue for a recognition of the cultural contributions of African Americans
