Technology, Disease and Colonial Conquests, Sixteenth to Eighteenth Centuries George Raudzens, 2022-10-04 The eight essays in this study reassess evidence about the plausibility of the widely accepted guns and germs theories which put forward firepower advantages and inadvertent disease importation as the two main causes of European imperial expansion overseas during the sixteenth seventeenth and eighteenth centuries All argue that these theories are important but oversimplified The effectiveness of firepower and disease impacts on specific groups of New World indigenes were always conditioned by time place and cultural characteristics Long range communication control was sometimes more important Above all motives driving invasions and conquests were often more influential than means and methodologies This publication has also been published in paperback please click here for details

The Misunderstood Mission of Jean Nicolet Patrick J. Jung, 2018-10-15 For years schoolchildren heard the story of Jean Nicolet's arrival in Wisconsin But the popularized image of the hapless explorer landing with billowing robe and guns blazing supposedly believing himself to have found a passage to China is based on scant evidence a false narrative perpetuated by fanciful artists renditions and repetition In more recent

decades historians have pieced together a story that is not only more likely but more complicated and interesting Patrick Jung synthesizes the research about Nicolet and his superior Samuel de Champlain whose diplomatic goals in the region are crucial to understanding this much misunderstood journey across the Great Lakes Additionally historical details about Franco Indian relations and the search for the Northwest Passage provide a framework for understanding Nicolet s famed mission

Heirs of an Ambivalent Empire Scott Berthelette,2022-07-19 The fur trade was the heart of the French empire in early North America The French Canadian Canadien men who traversed the vast hinterlands of the Hudson Bay watershed trading for furs from Indigenous trappers and hunters were its cornerstone Though the Canadiens worked for French colonial authorities they were not unwavering agents of imperial power Increasingly they found themselves between two worlds as they built relationships with Indigenous communities sometimes joining them through adoption or marriage raising families of their own The result was an ambivalent empire that grew in fits and starts It was guided by imperfect information built upon a contested Indigenous borderland fragmented by local interests and periodically neglected by government administrators *Heirs of an Ambivalent Empire* explores the lives of the Canadiens who used family and kinship ties to navigate between sovereign Indigenous nations and the French colonial government from the early 1660s to the 1780s Acting as cultural intermediaries the Canadiens made it possible for France to extend its presence into northwest North America Over time however their uncertain relationships with the French colonial state splintered imperial authority leading to an outcome that few could have foreseen the emergence of a new Indigenous culture language people and nation the M tis

Masters and Servants Scott P. Stephen,2020-01-09 Stephen offers fresh insight into the path a historic fur trading business took to become one of Canada s most recognizable retailers *Literary Review of Canada* In *Masters and Servants* Scott P Stephen reveals startling truths about Hudson s Bay Company HBC workers Rather than dedicating themselves body and soul to the Company s interests these men were hired like domestic servants joining a household with its attendant norms of duty and loyalty The household system produced a remarkably stable political economic entity connecting early North American resource extraction to larger trends in British imperialism Through painstaking research Stephen shines welcome light on the lives of these largely overlooked individuals An essential book for labor historians *Masters and Servants* will appeal to scholars of early modern Britain the North American fur trade Western social history business history and anyone intrigued by the reach of the HBC Blacksmiths bookkeepers loggers tanners coopers cooks sail makers interpreters surveyors clergy the list goes on

as Stephen marches us through the lives of the early Hudson's Bay worker The Ormsby Review Overall the book reflects the work of a historian comfortable with the hard work of archival research and with an eye for detail and insightful quotations In many respects it does for Hudson's Bay Company employees what Carolyn Podruchny's Making the Voyageur World did for employees of the Montreal based fur trade companies in recreating their values worldview and distinctive work environment Michael Payne Prairie History Archaeology of Bruce Trigger Ronald F. Williamson, Michael S. Bisson, 2006-08-24 The life and work of a renowned archaeologist *When the Spirit Calls* Edward J. Hedican, 2023-03-30 In January 1832 in the most southern part of Ontario's James Bay an elderly Cree man by the name of Quapakay was told by the spirits of the shaking tent that in order to survive the winter he was required to spoil the post at Hannah Bay a Hudson's Bay Company goose hunting station Following the directions of the spirits Quapakay and his sons carried out this ill fated task resulting in the deaths of sixteen occupants of the Hannah Bay post Now known as the Hannah Bay Massacre the victims included fur trader William Corrigan the postmaster and his wife and seven other Indigenous people When the Spirit Calls explores the social cultural and historical context in which the Hannah Bay tragedy took place as gleaned from the Hudson Bay Company's archival records and elucidations by Cree oral traditions The research is the culmination of over forty years of investigation by Edward J Hedican in Indigenous communities from the mid 1970s to the present day In the book Hedican aims to uncover the circumstances behaviours and attitudes that led to the slaughter When the Spirit Calls sheds light on the racist attitudes held by the white settler population towards Indigenous people attitudes that were prevalent in our colonial past and that continue to this very day
