The Battle Of Democracy Conflict Consensus And The Individual:

The Battle of Democracy Keith Graham, 1986-01-01 Democracy and Democratization Michael Moran, Geraint Parry, 2015-04-29 Following the collapse of the former regimes of Eastern and Central Europe and Latin America the choice of all of the democratising countries was to move towards liberal democracy Likewise in Africa many authoritarian regimes seem to be in retreat perhaps most significantly in South Africa Democracy seems to be the only valued political system of the late twentieth century so that even China for example describes itself as the people's democratic dictatorship So have we really as Francis Fukuyama suggested reached the end of history Should we not look seriously at the tension between liberalism and democracy which have led to dissatisfaction with the liberal model in countries such as Britain and France Is it not important to discuss the real problems of stabilisation and survival which the democratising countries are experiencing This timely collection examines questions of central concern to scholars and practitioners of politics It looks at both the concept of democracy and the process of democratisation combining theoretical chapters by historians of ideas and political theorists with empirical chapters on the process of democratisation in Eastern Europe China The Middle East and Latin America as well as in established democracies such as Britain and France Marxism and Democracy Joseph V. Femia, 1993-06-24 The collapse of the Soviet Union would seem to sound the death knell for Marxism as a blueprint for social change Why has this doctrine the repository of so many hopes and dreams failed in its grand ambition to liberate the human race from poverty and oppression Through a critical and systematic analysis of what Marx and his disciples had to say about democracy Joseph Femia sheds light on the reasons for this failure *Democracy and Social Injustice* Thomas W. Simon, 1995 In this truly interdisciplinary study that reflects the author's work in philosophy political science law and policy studies Thomas W. Simon argues that democratic theory must address the social injustices inflicted upon disadvantaged groups By shifting theoretical sights from justice to injustice Simon recasts the nature of democracy and provides a new perspective on social problems He examines the causes and effects of injustice victims responses to injustice and historical theories of disadvantage revealing that those theories have important repercussions for contemporary policy debates Finally Simon considers which institutions and practices come within the grasp of democracy and discusses the concept of a Negative Utopia or a future without injustice **Theories Of Comparative Political Economy** Ronald H. Chilcote, 2018-02-05 Professor Chilcote has written an extraordinary comprehensive comparison of mainstream liberal views and alternative radical views of history development class government and democracy This book will be extremely valuable to both students and scholars Howard Sherman University of California Riverside Theories of Comparative Political Economy builds on the proposition that the study of politics and economics has evolved into political economy in a number of significant ways and that the new issues and ideas that became prominent in the 1980s and 1990s will carry on into the new millennium This book is a sequel to Chilcote's Theories of Comparative Politics Westview 1981 which was substantially

revised and published in a second edition in 1994 Democracy and the "Kingdom of God" H.P. Kainz, 2012-12-06 I A Dangerous and or Useful Kingdom 5 II Is There a Concept of the Kingdom of God 9 III The Development of the Concept of a Kingdom of God in the Old Testament 15 IV Is an Apolitical Kingdom of God Possible 21 V The Vicissitudes of Theocracy in Israel 27 VI New Testament Conceptualization of Messianic Fulfillment 37 VII Is an Alternative Messianic Scenario Conceivable 43 VIII Did Jesus make a Major Mistake 51 IX The Dialectics of Christian Interpretation 59 X Hermeneutical Circle or circulus vitiosus 67 XI Political Milestones Three Romes Three Reichs Three Kingdoms and a Holy Roman 73 E mple viii XII Catholic Political Theology The Two Cities and Two Swords and Beyond 83 XIII How Visible can a City of God be 101 XIV Protestant Political Theology Beyond the Two Kingdoms and the Two Regiments 109 XV Does Hegelian Political Theology have a Future 119 XVI The Emergence of the Secular Kingdom of God 125 XVII Secularization a Boon to Mankind 137 XVIII Religious Experience Chosenness and Political Expression 145 XIX Does Democracy need Redefinition 157 XX The Dialectics of Democracy 169 XXI Democracy and the Kingdom of God 183 XXII Are Church and State Mutually Conducive 195 XXIII World Federalism and Ecumenical Christianity 205 Conclusion 221 BIBLIOGRAPHY 225 **Democracy and Development** Axel Hadenius, 1992-09-17 This book is a thorough investigation into the requisites of democracy Based on data from all 132 sovereign states of the Third World it first establishes a scale to measure the level of democracy existing in these countries The author discusses various interpretations of the meaning of political democracy and emerges with a specification of its essential principles which includes such elements as the holding of elections to central decision making organs and the maintenance of certain fundamental political liberties Theories concerning the requisites of democratic government are then examined in order to explain the manifest differences in the level of democracy among the states of the Third World The author employs statistical techniques including regression analysis to test theories related to socio economic conditions demographic and cultural factors and institutional arrangements This book thus provides a uniquely wide ranging examination both of the elements which constitute democracy and of the factors which explain its varying prevalence A Political Theory of Rights Attracta Ingram, 1994 Rights are the basic building blocks of every liberal state This book addresses fundamental questions about them What are they How can they be justified What role should they play in political life By offering new and cogent answers to these questions the book aims to provide a firm foundation for notions such as human rights **Citizenship, Markets, and the State** Colin Crouch, Klaus Eder, Damian Tambini, 2000-11-30 As the neo liberal marketization of citizenship and the resulting processes of individualization proceed debates on citizenship tend to flounder in outmoded ideological oppositions By examining concrete cases and processes that accompany contemporary practices of citizenship this volume brings analytical clarity to contemporary debates about citizenship The state the market and the forum are analysed as competing fields of citizenship practice and it is their complex relationship which helps us to understand the role and function not only of the debate on citizenship but of the institutions and practices of citizenship itself

in the contemporary world **Pentoutopia** Thomas Diefenbach, 2022-09-26 This book is about Pentoutopia the model of a good society It shows how a society could be how a society should be a society where everyone is as free as possible where all institutions are as democratic as possible where all people have relatively equal conditions where life is just and where systems and processes are sustainable The book illustrates comprehensively and in detail how institutions organisations the economy and society can be based on and function according to the principles of freedom democracy equality justice and sustainability Moreover it demonstrates how Pentoutopia works how its people and institutions establish and maintain a society that is not just a distant utopia but a realistic achievable and doable utopia
