

The Bedouins

Muhammad Suwaed

The Bedouins:

Historical Dictionary of the Bedouins Muhammad Suwaed, 2015-10-30 The term Bedouins was given to nomads who came from or lived in the desert and consisted of a sedentary population from the badia desert. However, in time it came to define their social economic essence as people who raised grazing animals and were compelled to conduct a nomadic life to live in tents that could be dismantled, carried and re-erected easily and to move with their livelihood and living accommodation according to the environmental conditions those which provided water and grass. Not all Bedouin tribes are of Arabic origin as all Muslim nomadic groups in the area adopted the term Bedouins. There are Bedouin tribes of Turkmen, Kurdish, Baluch and Berberic origin and there are Arabized African people and hybrid people who are categorized as Bedouins. The Historical Dictionary of the Bedouins contains a chronology, an introduction, an extensive bibliography. The dictionary section has over 300 cross-referenced entries on important personalities, politics, economy, foreign relations, religion, and culture. This book is an excellent access point for students, researchers, and anyone wanting to know more about the Bedouins.

Notes on the Bedouins and Wahabys Johann Ludwig Burckhardt, 2010 John Lewis Burckhardt 1784-1817

was a Swiss explorer who is best remembered for his rediscovery of the ancient city of Petra in Jordan. In 1809 he was commissioned by the African Association to discover the source of the River Niger. In preparation for this journey for which he needed to pass as a Muslim, Burckhardt spent two years exploring and studying Arabic in Aleppo before travelling widely in Arabia and Egypt. These volumes first published in 1830 contain Burckhardt's description of Bedouin society and his history of the Wahhabi sect of Islam. He describes the different Bedouin tribes of Arabia and the Middle East and their political allegiances and recounts in fascinating detail aspects of their society. He also narrates the history of the Wahhabi sect from its founding and discusses its effect on the politics of the region. Volume 2 contains his history of the Wahhabi sect.
