Christianity and Religious Plurality Wilbert R. Shenk, Richard J. Plantinga, 2016-10-11 Over the past two centuries the Christian faith has spread to all continents Although more global than ever Christians are religious minorities in most societies Religious freedom is hardly universal In the past fifty years millions of people have been uprooted from their traditional homelands in Asia Africa and Latin America Some have emigrated to Western Europe and North America The West has become the scene of cultural linguistic and religious variety on a scale unimagined in 1900 Today the full range of faiths and religious practices from all continents are present in Europe and North America Christians are challenged to come to terms with this changed situation These developments have intensified religious plurality Christians all over the world are being urged to understand and engage with this new situation This volume highlights this new reality and specifies some sources for engagement not least among them the Judeo Christian scriptures fundamental to all Christianities that emerged out of religious plural contexts On the basis of their faith in the Triune God disclosed in this text all followers of Jesus Christ must interact with these opportunities in today's radically context sensitive world

Immigration Research for a New Century Nancy Foner, Ruben G. Rumbaut, Steven J. Gold, 2000-11-16 The rapid rise in immigration over the past few decades has transformed the American social landscape while the need to understand its impact on society has led to a burgeoning research literature Predominantly non European and of varied cultural social and economic backgrounds the new immigrants present analytic challenges that cannot be wholly met by traditional immigration studies Immigration Research for a New Century demonstrates how sociology anthropology history political science economics and other disciplines intersect to answer questions about today's immigrants In Part I leading scholars examine the emergence of an interdisciplinary body of work that incorporates such topics as the social construction of race the importance of ethnic self help and economic niches the influence of migrant homeland ties and the types of solidarity and conflict found among migrant populations The authors also explore the social and national origins of immigration scholars themselves many of whom came of age in an era of civil rights and ethnic reaffirmation and may also be immigrants or children of immigrants Together these essays demonstrate how social change new patterns of immigration and the scholars personal backgrounds have altered the scope and emphases of the research literature allowing scholars to ask new questions and to see old

Transnational Cultural Flow from Home Pyong Gap Min,2022-12-09 When the first wave of post 1965 Korean immigrants arrived in the New York New Jersey area in the early 1970s they were reliant on retail and service businesses in the minority neighborhoods where they were This caused ongoing conflicts with customers in black neighborhoods of New York City with white suppliers at Hunts Point Produce Market and with city government agencies that regulated small business activities In addition because of the times Korean immigrants had very little contact with their homeland Korean immigrants in the area were highly segregated from both the mainstream New York society and South Korea However after the 1990 Immigration Act Korean immigrants with professional and managerial backgrounds have found occupations in the mainstream economy Korean community leaders also engaged in active political campaigns to get Korean candidates elected as city council members and higher levels of legislative positions in the area The Korean community s integration into mainstream society also increasingly developed stronger transnational ties to their homeland and spurred the inclusion of everyday Korean life in the NY NJ area Transnational Cultural Flow from Home examines New York Korean immigrants collective efforts to preserve their cultural traditions and cultural practices and their efforts to transmit and promote them to New Yorkers by focusing on the Korean cultural elements such as language foods cultural festivals and traditional and contemporary performing arts This publication was supported by the 2022 Korean Studies Grant Program of the Academy of Korean Studies AKS 2022 P 009

developments has been a particular source of concern This volume provides a counter catastrophic view of developments and a more sober and balanced assessment of the challenges the United States and other industrial democracies face in the sphere of international migration than that offered in recent years The first part is devoted to a diagnosis of the problem revaluation of the notion of a migration crisis by examining the likely consequences of population growth environmental degradation and political conflict in the developing and post communist worlds Special attention is also given to the manifestations of these forces in the western hemisphere where they may have direct consequences for immigration to the United States In the second part the implications for U S policy are considered ranging from promotion of democracy and development of strategies for minimizing international migrations and refugee flows to the intricacies of humanitarian relief and intervention when preventive measures prove ineffective A Double Burden Uzi Rebhun, Dani Kranz, Heinz

Torsten Feys, 2017-10-18 This book approaches the well documented study of European mass migration to the United States of America from the viewpoint of mass migration as a business venture The overall purpose is to demonstrate that maritime and migration histories are interlinked and dependent on a deeper understanding of the social economic and political factors at work in the nineteenth century Atlantic community It centres on both the evolution of the port of Rotterdam as a migration gateway and the crucial role of the Holland America line as a regulator of the North American passenger trade The first part of the book explores the simultaneous rise of transatlantic mass migration and long distance steamshipping between 1830 to 1870 The second part divided into five chapters explores how mass migration became a big business between 1870 and 1914 and scrutinises how steamship companies organised and provided initiatives for transoceanic migration plus the role of shipping agents and agent networks and how passenger services were constructed within transatlantic networks Over the course of the text it becomes increasingly clear that by approaching mass migration as a trade issue the role of steamship companies in the facilitation of transatlantic migration is rendered both intrinsic and pivotal It consists of an introduction containing contextual information two sections providing historical overviews five chapters exploring different aspects of the shipping industry s response to mass migration conclusion bibliography and six appendices of passenger destination agent and advertising statistics Externalizing Migration Management

Ruben Zaiotti, 2016-02-05 The extension of border controls beyond a country s territory to regulate the flows of migrants before they arrive has become a popular and highly controversial policy practice Today remote control policies are more visible complex and widespread than ever before raising various ethical political and legal issues for the governments promoting them The book examines the externalization of migration control from an interdisciplinary and comparative perspective focusing on remote control initiatives in Europe and North America with contributions from the fields of politics sociology law geography anthropology and history This book uses empirically rich analyses and compelling theoretical insights to trace the evolution of remote control initiatives and assesses their impact and policy implications It also explores competing theoretical models that might explain their emergence and diffusion Individual chapters tackle some of the most puzzling questions underlying remote control policies such as the reasons why governments adopt these policies and what might be their impact on migrants and other actors involved
