William Smith, 1880      **Seeds of Western Culture: Universal Chronology, the Exodus and Archilochus' Odyssey**  
Graham Peter Scott, 2025-01-01 The book rediscovers two of the main seeds of Western Culture the Exodus and the Odyssey

which are entwined within the book by both a common link with Egypt and a review of ancient chronology. They were both antecedents to the rise of Christianity which is at the heart of Western Culture. It was inspired by a desire to understand the spiritual message of the Odyssey which required both geographical and spiritual interpretations of the poem. Linked to this was a desire to understand the political context of the Trojan story which required resolving the false hiatus in the archaeology of Troy. This resulted in a new paradigm for understanding ancient chronology which revealed the stories behind the Exodus and the location of the Garden of Eden. Writing the book has been a long and eventful journey longer than Odysseus 19 years away from home. The book is written in five parts: Universal Chronology Based on the identification of Menophres with Thutmose III and of the Bubastite Portal's reference to Shoshenq's participation in the Battle of Qarqar; the Egyptian Third Intermediate Period is shortened by 120 years with a pharaoh ruling from Tanis and subordinate kings at Bubastis and Thebes; The Exodus Using the Universal Chronology and genealogical information and dates provided by the Bible it is demonstrated that the story of the Exodus is a combination of two events being the exodus of the Hyksos led by Abraham in 1406 BC following the eruption of Thera and the exodus of the Atenist Levite priests led by Moses in about the first year of Tutankhamun 1204 BC. The story of Abraham also reveals the location of the Garden of Eden in the heartland of the Levant. Radiocarbon Dating The process that created the dendrochronology based radiocarbon calibration curve is demonstrated to be a flawed non scientific process that relied upon circular arguments. The Odyssey By comparing the life and work of Archilochus to both the Odyssey and the Iliad it is shown that Archilochus must have been the author of the Odyssey. The allegory within the Odyssey is also discussed to provide both geographical and spiritual interpretations of the poem. Western Culture The two main streams of Western Culture Ancient Greece and Christianity are shown to have had their foundations in the stories surrounding the Trojan War, the spiritual message of the Odyssey and the influences of Egypt on Greece and Judaism. It is shown how Greek and Jewish religions were fused to create the Gospels and contributed towards modern astrology.

**The Routledge Companion to Strabo** Daniela Dueck, 2017-03-16 The Routledge Companion to Strabo explores the works of Strabo of Amasia c. 64 BCE c. CE 24 a Greek author writing at the prime of Roman expansion and political empowerment. While his earlier historiographical composition is almost entirely lost, his major opus of the Geography includes an encyclopaedic look at the entire world known at the time, numerous ethnographic, topographic, historical, mythological, botanical and zoological details and much more. This volume offers various insights to the literary and historical context of the man and his world. The Companion in twenty-eight chapters written by an international group of scholars examines several aspects of Strabo's personality, the political and scholarly environment in which he was active, his choices as an author and his ideas of history and geography. This selection of ongoing Strabonian studies is an invaluable resource not just for students and scholars of Strabo himself but also for anyone interested in ancient geography and in the world of the

early Roman Empire      Xenophon: Ethical Principles and Historical Enquiry Christopher Tuplin, Fiona Hobden, 2012-08-28  
 Xenophon's personal history was exceptional for its combination of Socratic education and the exercise of military leadership in a time of crisis. His writings provide an intellectually and morally consistent response to his times and to the issue of ethical but effective leadership and they play a special role in defining our sense of the post Athenian Empire Greek world. Recent Xenophonic scholarship has established the general truth of these claims. The current volume will not only reinforce them but also contribute to greater understanding of a voice that is neither simply ironic nor simply ingenuous and of a view of the world that is informed by an engagement with history      **Classical Greek and Roman Drama** Robert J. Forman, 1989. An essential companion for the student of literature. Works selected include the best known works of the classical Greek and Roman theatre      Eusebius of Caesarea Apostrophe Arne Horn, 2016-05-14. The Chronicle Pantodape historia is divided into two parts. The first part the Chronography Chronographia gives an epitome of universal history from the sources arranged according to nations. The second part the Canons Chronikoi kanones furnishes a synchronism of the historical material in parallel columns the equivalent of a parallel time line. The work as a whole has been lost in the original Greek but it may be reconstructed from later chronographers of the Byzantine school who made excerpts from the work especially George Syncellus. The tables of the second part have been completely preserved in a Latin translation by Jerome and both parts are still extant in an Armenian translation      **ALL-IN-ONE HOLY BIBLE WITH APOCRYPHA** Dunatos Publishing, 2025-09-22. **Textual Rivals** David Branscome, 2013-11-06 Textual Rivals studies some of the most debated issues in Herodotean scholarship One such is Herodotus self presentation the conspicuousness of his authorial persona is one of the most remarkable features of his Histories So frequently does he interject first person comments into the narrative that Herodotus at times almost becomes a character within his own text Important issues are tied to Herodotus self presentation First is the narrator's relationship to truth to what extent does he expect readers to trust his narrative While judgments regarding Herodotus overall veracity have often been damning scholars have begun to concentrate on how Herodotus presents his truthfulness Second is the precise genre Herodotus means to create with his work Excluding the anachronistic term historian exactly what would Herodotus have called himself as author Third is the presence of self referential characters whose actions often mirror Herodotus as narrator researcher in the Histories David Branscome's

investigative text points to the rival inquirers in Herodotus Histories as a key to unraveling these interpretive problems The rival inquirers are self referential characters Herodotus uses to further his authorial self presentation Through the contrast Herodotus draws between his own exacting standards as an inquirer and the often questionable standards of those rivals Herodotus underlines just how truthful readers should find his own work Textual Rivals speaks to those interested in Greek history and historiography narratology and ethnography Those in the growing ranks of Herodotus fans will find much to invite and intrigue
