Space, Place, and Violence James A. Tyner, 2012-05-02 Direct interpersonal violence is a pervasive yet often mundane feature of our day to day lives paradoxically violence is both ordinary and extraordinary Violence in other words is often hidden in plain sight Space Place and Violence seeks to uncover that which is too apparent to critically question both violent geographies and the geographies of violence With a focus on direct violence this book situates violent acts within the context of broader political and structural conditions Violence it is argued is both a social and spatial practice Adopting a geographic perspective Space Place and Violence provides a critical reading of how violence takes place and also produces place Specifically four spatial vignettes home school streets and community are introduced designed so that students may think critically how race sex gender and class inform violent geographies and geographies of violence

Movement Media Rachel Kuo, Assistant Professor of Gender and Women's Studies and Asian American Studies Rachel Kuo, 2025-10-09 In Movement Media Rachel Kuo assesses the possibilities and limitations of crafting solidarities through media making processes and communication practices Drawing on interviews archival research and ethnographic fieldwork Kuo revisits key social movements to assess the mundane and less visible forms of movement building that help various groups navigate the politics of difference in theory and in practice Kuo situates these movements alongside shifts in technological developments and the communication landscape making the case that building and sustaining solidarity requires time and work to develop shared political analysis and practices

The Oxford Encyclopedia of Women in World History Bonnie G. Smith, 2008 The Encyclopedia of Women in World History captures the experiences of women throughout world history in a comprehensive 4 volume work Although there has been extensive research on women in history by region no text or reference work has comprehensively covered the role women have played throughout world history The past thirty years have seen an explosion of research and effort to present the experiences and contributions of women not only in the Western world but across the globe Historians have investigated womens daily lives in virtually every region and have researched the leadership roles women have filled across

time and region They have found and demonstrated that there is virtually no historical social or demographic change in which women have not been involved and by which their lives have not been affected The Oxford Encyclopedia of Women in World History benefits greatly from these efforts and experiences and illuminates how women worldwide have influenced and been influenced by these historical social and demographic changes The Encyclopedia contains over 1 250 signed articles arranged in an A Z format for ease of use The entries cover six main areas biographies geography and history comparative culture and society including adoption abortion performing arts organizations and movements such as the Egyptian Uprising and the Paris Commune womens and gender studies and topics in world history that include slave trade globalization and disease With its rich and insightful entries by leading scholars and experts this reference work is sure to be a valued go to resource for scholars college and high school students and general readers alike

Phoebe, 1989 **Understanding the Global Environment** Samir Dasgupta, 2009 Globalization is often discussed in terms of its ecological ramifications Yet while ecological imbalance is today one of the greatest threats to mankind globalization is also a reality that is here to stay The volume therefore seeks to address how globalizing and environmental interests can be reconciled The essays in this volume state that globalization can work both in favour of and against the environment The major issues discussed in this topical volume are how globalization can be used to promote environmental reforms the role of individuals private organizations and governments in keeping environmental degradation in check and in promoting environmental reform globalization and ecological inequality women the environment and globalization changing nature of environmental movements overpopulation and the ecology the relation between the ecology and the economy and the effects of global climate changes
