The Last of the Mohicans : [audio download available] ; [Level 4 (A2/B1)] James Fenimore Cooper, Janet Olearski, 2008-01 **James Fenimore Cooper** W. M. Verhoeven, 1993 Most of the essays in James Fenimore Cooper New Historical and Literary Contexts are either directly or indirectly informed by the need to confront Cooper's tales with the indeterminate historical context from which they arose Others start from the premise that our understanding of Cooper's work can benefit significantly from displacing it from its traditional position in American literary history and by repositioning it in a new literary context What unites all the essays is a commitment to read Cooper's works as culturally encoded documents that both reflect and give us access to the complex equivocal mind that created them This is not to say that the essays share a common critical or methodological approach indeed they were commissioned and selected with the specific intention of applying contending approaches in contemporary literary discourse to the canonical Cooper While the array of critical approaches represented in the book is by no means exhaustive interpretive strategies vary from textual formalistic New Critical readings to old historical contextual readings and from new historical revisionist readings to deconstructive readings Through their critical diversity these essays will cast a new light on Cooper's work in relation to its historical

context and on the relevance of Cooper's work to both nineteenth century and modern literary historical and ideological debates

The Last of the Mohicans James Cooper, 2017-08-12 The Last of the Mohicans is a historical novel by James Fenimore Cooper first published in January 1826. It was one of the most popular English language novels of its time. Its narrative flaws were criticized from the start and its length and elaborately formal prose style have reduced its appeal to later readers. Regardless, The Last of the Mohicans is widely read in American literature courses. This second book of the Leatherstocking Tales pentology is the best known. The Pathfinder, written 14 years later in 1840, is its sequel. Cooper named a principal character Uncas after the most famous of the Mohicans. The real Mohicans lived in the colony of Connecticut in the mid-seventeenth century and not in the New York frontier a century later. Uncas was a Mohegan, not a Mohican, and Cooper's usage has helped to confuse the names of two tribes to the present day. When John Uncas, his last surviving male descendant, died in 1842, the Newark Daily Advertiser wrote "Last of the Mohegans Gone," lamenting the extinction of the tribe. The writer was not aware that Mohegans still existed then and to the present day. The story takes place in 1757 during the Seven Years War, known in America as the French and Indian War, when France and the United Kingdom battled for control of the American and Canadian colonies. During this war, the French often allied themselves with Native American tribes in order to gain an advantage over the British, with unpredictable and often tragic results.

Secondary Heroines in Nineteenth-century British and American Novels Jennifer Camden, 2010 Taking up works by Samuel Richardson, James Fenimore Cooper, Sir Walter Scott, and Catharine Maria Sedgwick among others, Jennifer B. Camden examines the role of secondary heroines in early British and American novels. By showing that they are a site for the displaced anxieties produced by the national ideals proffered in the novel, Camden offers an important intervention into the ways in which early novels use character to further ideologies of race, class, sex, and gender.
