The Outer Limits Second Chance:

The Outer Limits Joanne Morreale, 2022-04-05 Provides a history and criticism of an important disrupting force in early science fiction television programming In this TV Milestone author Joanne Morreale highlights the differences of *The Outer Limits* ABC 1963-65 from typical programs on the air in the 1960s Morreale argues that the show provides insight into changes in the television industry as writers turned to genre fiction in this case a hybrid of science fiction and horror to provide veiled social commentary The show illustrates the tension between networks who wanted mainstream entertainment and the independent writer producers Leslie Stevens and Joseph Stefano who wanted to use the medium to challenge viewers In five chapters *The Outer Limits* makes a case for the show's deployment of gothic melodrama and science fiction tropes unique televisual characteristics and creative adaptation of many cultural sources to interrogate the relationship between humans and technology in a way that continues to influence contemporary debate in such shows as *Star Trek*, *The X-Files* and *Black Mirror* Underlying the arguments is the eerie notion of *The Outer Limits* as a disruptive force on television at the time purposely making audiences uncomfortable For example in its iconic opening credit sequence a disembodied Control Voice claims to be taking over the television as images mimic signal interference Other themes convey Cold War paranoia ambivalence about the Kennedy era New Frontier and anxiety about the burgeoning military industrial governmental complex The book points out that *The Outer Limits* presaged what came to be known as quality television While most episodes followed the lowbrow tradition of televised science fiction by adapting previously published stories and films the series elevated the genre by rearticulating it through themes and images drawn from myth literature and the art film *The Outer Limits* is lucid yet accessible well researched and argued with enlightening discussions of specific episodes even as it gives attention to broader television history and theory It will be of special interest to scholars and students of television and media studies as well as fans of science fiction

Eliseo Subiela in Life and Cinema Nancy J. Membrez, 2022-02-25. Audiences never have a lukewarm opinion of a Subiela film. They either love it passionately or hate it profoundly. That Eliseo Subiela, Buenos Aires 1944-2016, an original and sensitive thinker, survived and indeed thrived in economically challenged Argentina while garnering more accolades abroad than in his own country is a tribute to his grit, intelligence, imagination, and persistence of vision. With an astounding list of prizes and honors, he was a world-class auteur. Even when he was making a TV commercial, his surreal style and poetic sensibility were unmistakable. This book represents the culmination of 20 years of research and personal correspondence with Eliseo Subiela. Through ten scholarly studies and five interviews, it sheds light on his life, esthetics, obsessions, struggles with madness, and of course his films. It addresses his earlier career in advertising, lifelong artistic influences, screenwriting techniques, critical reactions to his films, and what Subiela's example has to offer aspiring filmmakers, especially those in Latin America.

Assessing accuracy and plausibility, the author considers the possibilities of solar system, interstellar, and faster-than-light travel; intelligent planets; dark matter; the multiverse; and string theory; time travel; alternate universes; teleportation; and replication; weaponry; force fields; extraterrestrial life; subatomic life; emotional robots; super-human and parapsychological powers; asteroid impacts; space colonies; and many other topics.
