The Past That Poets Make:

The Past that Poets Make Harold E. Toliver, 1981 This analysis of the literary art of recapturing the past as the artist perceives it examines such questions as how a fictional narrative differs from other ways of seeing a past time to what extent literature is nontemporal and to what extent it is tied to the institutions and traditions of its era and how given works conjure up a sense of time

Poetry and the Making of the English Literary Past, 1660-1781 Richard G. Terry, 2001 The book concludes that the opening up and ordering of the English literary past occurs earlier than is generally supposed and the same also applies to the process by which women writers achieve their own distinctive form of canonical recognition

BOOK JACKET Making of the English Literary Canon Trevor Thornton Ross, 1998 It is widely accepted among literary scholars that canon formation began in the eighteenth century when scholarly editions and critical treatments of older works designed to educate readers about the national literary heritage appeared for the first time In The Making of the English Literary Canon Trevor Ross challenges this assumption arguing that canon formation was going on well before the eighteenth century but was based on a very different set of literary and cultural values Covering a period that extends from the Middle Ages to the institutionalisation of literature in the eighteenth century Ross's comprehensive history traces the evolution of cultural attitudes toward literature in English society highlighting the diverse interests and assumptions that defined and shaped the literary canon An indigenous canon of letters Ross argues had been both the hope and aim of English authors since the Middle Ages Early authors believed that promoting the idea of a national literature would help publicise their work and favour literary production in the vernacular Ross places these early gestures toward canon making in the context of the highly rhetorical habits of thought that dominated medieval and Renaissance culture habits that were gradually displaced by an emergent rationalist understanding of literary value He shows that beginning in the late seventeenth century canon makers became less concerned with how English literature was produced than with how it was read and received By showing that canon formation has served different functions in the past The Making of the English Literary Canon is relevant not only to current debates over the canon but also as an important corrective to prevailing views of early modern English literature and of how it was first evaluated promoted and preserved It is widely accepted among literary scholars that canon formation began in the eighteenth century when scholarly editions and critical treatments of older works designed to educate readers about the national literary heritage appeared for the first time In The Making of the English Literary Canon Trevor Ross challenges this assumption arguing that canon formation was going on well before the eighteenth century but was based on a very different set of literary and cultural values Covering a period that extends from the Middle Ages to the institutionalisation of literature in the eighteenth century Ross's comprehensive history traces the evolution of cultural attitudes toward literature in English society highlighting the diverse interests and assumptions that defined and shaped the literary canon An indigenous canon of letters Ross argues had been both the hope and aim of English

authors since the Middle Ages Early authors believed that promoting the idea of a national literature would help publicise their work and favour literary production in the vernacular Ross places these early gestures toward canon making in the context of the highly rhetorical habits of thought that dominated medieval and Renaissance culture habits that were gradually displaced by an emergent rationalist understanding of literary value He shows that beginning in the late seventeenth century canon makers became less concerned with how English literature was produced than with how it was read and received By showing that canon formation has served different functions in the past *The Making of the English Literary Canon* is relevant not only to current debates over the canon but also as an important corrective to prevailing views of early modern English literature and of how it was first evaluated promoted and preserved *Make It the Same* Jacob Edmond, 2019-07-30 The world is full of copies This proliferation includes not just the copying that occurs online and the replication enabled by globalization but the works of avant garde writers challenging cultural and political authority In *Make It the Same* Jacob Edmond examines the turn toward repetition in poetry using the explosion of copying to offer a deeply inventive account of modern and contemporary literature *Make It the Same* explores how poetry an art form associated with the singular inimitable utterance is increasingly made from other texts through sampling appropriation translation remediation performance and other forms of repetition Edmond tracks the rise of copy poetry across media from the tape recorder to the computer and through various cultures and languages reading across aesthetic linguistic geopolitical and technological divides He illuminates the common form that unites a diverse range of writers from dub poets in the Caribbean to digital parodists in China samizdat wordsmiths in Russia to Twitter trolling provocateurs in the United States analyzing the works of such writers as Kamau Brathwaite Dmitri Prigov Yang Lian John Cayley Caroline Bergvall M NourbeSe Philip Kenneth Goldsmith Vanessa Place Christian B k Yi Sha Hsia Y and Tan Lin Edmond develops an alternative account of modernist and contemporary literature as defined not by innovation as in Ezra Pound's oft repeated slogan make it new but by a system of continuous copying *Make It the Same* transforms global literary history showing how the old hierarchies of original and derivative center and periphery are overturned when we recognize copying as the engine of literary change

Beyond Spoon River Ronald Primeau, 2014-09-12 As the first full length critical study of Edgar Lee Masters *Beyond Spoon River* is important not only for its reevaluation of this American poet and his work but also for its valuable insights into central questions of aesthetics regionalism and the nature and meaning of literary influence The inordinate popularity of *Spoon River Anthology* has for many years unfairly restricted Masters reputation as a one book phenomenon although between 1911 and 1942 he wrote over fifty other books most of which were neglected or misinterpreted precisely because they attempted a large scale rewriting of what he felt had been obscured or distorted in the Anglo American tradition Masters wide reading in the whole of western literature shaped his own attitudes themes and style and his detailed accounts of that reading and its effect on his work form the basis for this reinterpretation of his place in American poetry in this

century After reviewing Masters own statements on literary influence and his role as a critic Primeau devotes the main body of his study to the major influences on Masters work the Greeks Goethe Emerson Whitman Shelley and Browning For Masters the composite of all these influences provided a corrective to the poetry and criticism of his time which he little admired Primeau concludes by exploring Masters midwestern heritage in the light of recent reinterpretations of regionalism

The North British Review ,1847 Modernism and the Ideology of History Louise Blakeney Williams,2002-07-04 Louise Williams explores the nature of historical memory in the work of five major Modernists Yeats Pound Hulme Ford and Lawrence These Modernists Williams argues started their careers with historical assumptions derived from the nineteenth century But their views on the universal structure of history on the abandonment of progress and the adoption of a cyclical sense of the past were the result of important conflicts and changes within the Modernist period Williams focuses on the period immediately before World War I and shows in detail how Modernism developed and why it is considered a unique intellectual movement She also revisits the theory that the Edwardian age was a difficult period of transition to the modern world Finally she illuminates the contribution of non Western culture to the literature and thought of the period This wide ranging and inter disciplinary study is essential reading for literary and cultural historians of the modernist period *Keats, Shelley, and Romantic Spenserianism* Greg Kucich,2010-11-01 *The Rice Institute Pamphlet* ,1915 The Book of the Opening of the Rice Institute Rice University,William M.
