The Penumbra Unbound Brook Ziporyn, 2003-03-18 Explores the work of Guo Xiang a Neo Taoist thinker who developed a radical philosophy of freedom and spontaneity

The Penumbra Unbound Brook Ziporyn, 2012-02-01 The Penumbra Unbound is the first English language book length study of the Neo Taoist thinker Guo Xiang d 312 C E commentator on the classic Taoist text the Zhuangzi The author explores Guo s philosophy of freedom and spontaneity explains its coherence and importance and shows its influence on later Chinese philosophy particularly Chan Buddhism The implications of his thought on freedom versus determinism are also considered in comparison to several positions advanced in the history of Western philosophy notably those of Spinoza Kant Schopenhauer Fichte and Hegel Guo s thought reinterprets the classical pronouncements about the Tao so that it in no way signifies any kind of metaphysical absolute underlying appearances but rather means literally nothing This absence of anything beyond appearances is the first premise in Guo s development of a theory of radical freedom one in which all phenomenal things are self so creating and transforming themselves without depending on any justification beyond their own temporary being

The Routledge Companion to Chinese Philosophy Brook Ziporyn, Stephen C. Walker, 2025-10-21 The Routledge Companion to Chinese Philosophy features more than 40 chapter length introductions to the concepts claims and arguments that animate the Chinese philosophical tradition Taking a topic by topic rather than text by text approach this Companion aims at helping contemporary Anglophone readers access the philosophical riches of the Chinese tradition by balancing close analysis with broad contextualization The book is divided into four Acts that reflect system level changes in how the Chinese philosophical conversation has been conducted Act I draws primarily on pre imperial texts foregrounding competition among persuaders in the absence of a geographical or canonical center of gravity Act II focuses on the early imperial centralization of intellectual culture around the corpus of Confucian classics Act III restructures the conversation space according to the radically innovative priorities of Buddhism Act IV focuses on Neo Confucianism which combines some of the priorities of Act II with the ongoing legacy of Act III Within each Act contributors focus on topics like religious and political thought ethics and self cultivation philosophical anthropology and theory of agency language epistemology metaphysics hermeneutics and debate This volume is essential reading for students academics and philosophers with an interest in Chinese philosophy

Literary Information in China Bruce Rusk, Anatoly Detwyler, Christopher Nugent, Xiao Liu, Jack W. Chen, 2021-05-11 Information has become a core concept across the disciplines yet it is still often seen as a unique feature of the Western world that became central only in the digital age In this book leading experts turn to China s textual tradition to show the significance of information for reconceptualizing the work of literary history from its beginnings to the present moment Contributors trace the organization of literary information across China s three millennia of history examining the forms and

practices of information management that have evolved alongside the increasing scale and complexity of textual production. They reimagine literary history as information processing detailing the many kinds of storage, encoding, sorting, and transmission that constitute and feed back into China's long and ever-growing cultural tradition. The volume features state-of-the-field essays on all major forms of literary information management, from graphs to internet literature and from commentaries to literary museums and archives. By shifting focus from individual works and their authors to the informatic schemata of literature, it identifies three scales of information management: the word, the document, and the collection, and surveys the forms that operate at each level, such as the dictionary, the anthology, and the library. *Literary Information in China* is a groundbreaking work that provides a systematic and innovative reassessment of literary history with implications that extend beyond the particular Chinese context, revealing how informatic practices shape literary tradition. [The Oxford Handbook of Japanese Philosophy](#) Bret W. Davis, 2020. This handbook is currently in development with individual articles publishing online in advance of print publication. At this time, we cannot add information about unpublished articles in this handbook; however, the table of contents will continue to grow as additional articles pass through the review process and are added to the site. Please note that the online publication date for this handbook is the date that the first article in the title was published online. *A Companion to Buddhist Philosophy* Steven M. Emmanuel, 2015-11-23. *A Companion to Buddhist Philosophy* is the most comprehensive single volume on the subject available; it offers the very latest scholarship to create a wide-ranging survey of the most important ideas, problems, and debates in the history of Buddhist philosophy. Encompasses the broadest treatment of Buddhist philosophy available, covering social and political thought, meditation, ecology, and contemporary issues and applications. Each section contains overviews and cutting-edge scholarship that expands readers' understanding of the breadth and diversity of Buddhist thought. Broad coverage of topics allows flexibility to instructors in creating a syllabus. Essays provide valuable alternative philosophical perspectives on topics to those available in Western traditions. [The Oxford Handbook of World Philosophy](#) Jay L. Garfield, William Edelglass, 2011-06-09. This volume provides the advanced student or scholar a set of introductions to each of the world's major non-European philosophical traditions. Sections on Chinese philosophy, Indian philosophy, Buddhist philosophy, East Asian philosophy, African philosophy, and trends in global philosophy are all edited by an expert. *Philosophers of the Warring States: A Sourcebook in Chinese Philosophy*, 2018-11-30. *Philosophers of the Warring States* is an anthology of new translations of essential readings from the classic texts of early Chinese philosophy, informed by the latest scholarship. It includes the *Analects of Confucius*, *Meng Zi* (Mencius), *Xun Zi*, *Mo Zi*, *Lao Zi*, *Dao De Jing*, *Zhuang Zi*, and *Han Fei Zi*, as well as short chapters on the *Da Xue* and the *Zhong Yong*. Pedagogically organized, this book offers philosophically sophisticated annotations and commentaries, as well as an extensive glossary explaining key philosophical concepts in detail. The translations aim to be true to the originals yet accessible, with the goal of opening up these rich and subtle philosophical texts to modern readers without prior training in Chinese thought.

The Political Philosophy of Zhang Taiyan Viren Murthy, 2011-02-28 Zhang Taiyan 1868 1936 is famous for being one of the first thinkers in China to promote revolution in the early twentieth century. Scholars have addressed Zhang's revolutionary and nationalist thought but until this work there has not been any sustained engagement with Zhang's Buddhist writings which aimed to understand and criticize the world from the perspective of consciousness. These philosophical works are significant because they exemplify how as Chinese intellectuals entered the global capitalist world they constantly tried to find resources to create an alternative. As the author argues in the conclusion this desire to create an alternative to capitalism remained throughout twentieth century China and continues today in the works of critical intellectuals such as Wang Hui. Thus this work is important not only to understand our past but to hope for a better future.
