The Battle For Tolmers Square:

The Battle for Tolmers Square Nick Wates, 1976 *The Battle for Tolmers Square (Routledge Revivals)* Nick Wates, 2013-01-17 First published in 1976 this book tells of the dramatic struggle between tenants groups community associations students squatters intellectuals political parties and property developers at Tolmers Square in north London The author describes how property developers interested only in maximising profits attempted to redevelop the Tolmers area for offices while the local authority pressurised by local tenants and faced with a housing shortage tried to redevelop for housing This book is about the politics of central city redevelopment Although this text focuses on one particular case study the same processes operate in all cities where land is used as a commodity for financial speculation By tracing the Tolmers case in detail this text demonstrates the forces which operate in city redevelopment and shows the affect which various forms of opposition can have The New Science of Cities Michael Batty, 2017-07-28 A proposal for a new way to understand cities and their design not as artifacts but as systems composed of flows and networks In *The New Science of Cities* Michael Batty suggests that to understand cities we must view them not simply as places in space but as systems of networks and flows To understand space he argues we must understand flows and to understand flows we must understand networks the relations between objects that compose the system of the city Drawing on the complexity sciences social physics urban economics transportation theory regional science and urban geography and building on his own previous work Batty introduces theories and methods that reveal the deep structure of how cities function Batty presents the foundations of a new science of cities defining flows and their networks and introducing tools that can be applied to understanding different aspects of city structure He examines the size of cities their internal order the transport routes that define them and the locations that fix these networks He introduces methods of simulation that range from simple stochastic models to bottom up evolutionary models to aggregate land use transportation models Then using largely the same tools he presents design and decision making models that predict interactions and flows in future cities These networks emphasize a notion with relevance for future research and planning that design of cities is collective action **A Modern History of European Cities** Rosemary Wakeman, 2020-01-23 Rosemary Wakeman s original survey text comprehensively explores modern European urban history from 1815 to the present day It provides a journey to cities and towns across the continent in search of the patterns of development that have shaped the urban landscape as indelibly European The focus is on the built environment the social and cultural transformations that mark the patterns of continuity and change and the transition to modern urban society Including over 60 images that serve to illuminate the analysis the book examines whether there is a European city and if so what are its characteristics Wakeman offers an interdisciplinary approach that incorporates concepts from cultural and postcolonial studies as well as urban geography and provides full coverage of urban society not only in western Europe but also in eastern and southern Europe using various cities and city types to inform the discussion The book provides detailed

coverage of the often neglected urbanization post 1945 which allows us to more clearly understand the modernizing arc Europe has followed over the last two centuries

Handbook of Local and Regional Development Andy Pike, Andres Rodriguez-Pose, John Tomaney, 2010-11-17 The Handbook of Local and Regional Development provides a comprehensive statement and reference point for local and regional development The scope of this Handbook's coverage and contributions engages with and reflects upon the politics and policy of how we think about and practise local and regional development encouraging dialogue across the disciplinary barriers between notions of local and regional development in the Global North and development studies in the Global South This Handbook is organized into seven inter related sections with an introductory chapter setting out the rationale aims and structure of the Handbook Section one situates local and regional development in its global context Section two establishes the key issues in understanding the principles and values that help us define what is meant by local and regional development Section three critically reviews the current diversity and variety of conceptual and theoretical approaches to local and regional development Section four address questions of government and governance Section five connects critically with the array of contemporary approaches to local and regional development policy Section six is an explicitly global review of perspectives on local and regional development from Africa Asia Pacific Europe Latin America and North America Section seven provides reflection and discussion of the futures for local and regional development in an international and multidisciplinary context With over forty contributions from leading international scholars in the field this Handbook provides critical reviews and appraisals of current state of the art conceptual and theoretical approaches and future developments in local and regional development

Activist Planning Case Studies 1990-2020 Tore Sager, 2023-05-10 Activist planning shows how communities neighbourhoods and social movements use their own alternative spatial planning to oppose interventions from the government This book is a systematic overview of scholarly reported activist planning cases It includes descriptions of the various kinds of activist planning and contains a comprehensive bibliography of academic publications related to the 164 cases The book informs the planning community what activist planning is in practice and offers a classification scheme where all reported cases fit in This text is needed because no comprehensive collection of activist planning cases exists nor does a classification comprising all types of activist planning There is to date no database of cases and associated literature providing researchers and students with an authoritative source The search for cases in the English language has been global and the cases and 122 supplementary examples are sorted by country and world region Australasia Europe the Global South and North America

Industrial and Business Space Development C. Marsh, H. Martinos, A. McIntosh, S. Morely, 2003-09-02 An insight into the changing nature of the industrial and business space property market and how business space development schemes can be initiated and implemented to revitalise urban areas

Community Architecture (Routledge Revivals) Nick Wates, Charles Knevitt, 2013-09-05 First published in 1987 this title was one of the first to explore the emerging popular movement of

Community Architecture championed by Prince Charles which gained momentum throughout Britain in the 1970s and 1980s. The conceptual framework rests fundamentally on the principle that the built environment is most effective when those who live in a particular area are actively engaged with its creation and daily administration. A work that has influenced policy makers and planning legislation. Community Architecture remains one of the key reference works for student architects and planners.

The Community Planning Handbook Nick Wates, 2014-04-03. Growing numbers of residents are getting involved with professionals in shaping their local environment and there is now a powerful menu of tools available from design workshops to electronic maps. The Community Planning Handbook is the essential starting point for all those involved: planners and local authorities, architects and other practitioners, community workers, students and local residents. It features an accessible how-to-do-it style, best practice information on effective methods, and international scope and relevance. Tips, checklists, and sample documents help readers to get started quickly, learn from others' experience, and to select the approach best suited to their situation. The glossary, bibliography, and contact details provide quick access to further information and support. This fully updated new edition contains extra material on following up after community engagement activities.

Richer Futures Ken Worpole, 2020-09-10. In every area of life, traditional centralized party politics has been failing, and the seeds of a new form of political life are being sown. This is true in housing, health, education, consumption, and transport, where public policy is attracting increasing criticism. In an age of social alienation and urban despondency, *Richer Futures* is a timely response to the growing interest in community-based self-help action. It introduces new forms of communication and decision-making and sets out a programme for a sustainable politics. Contributions from some of the best-known thinkers and writers on contemporary urban, cultural, and social policy, and campaigns in Britain today, pay tribute to the ideas and industrious activities of the influential writer and commentator Colin Ward. This uplifting collection of essays looks forward to a new politics of self-management and environmentally aware and sustainable lifestyles. Ken Worpole has written a number of books on urban and cultural policy and a series of influential reports for Comedia, Demos, and the Department of the Environment. Originally published in 1999.
