The Battle Of Kursk Modern War Studies:

The Battle of Kursk David M. Glantz, Jonathan M. House, 1999-10-29 Immense in scope ferocious in nature and epic in consequence the Battle of Kursk witnessed at Prokhorovka one of the largest tank engagements in world history and led to staggering losses including nearly 200 000 Soviet and 50 000 German casualties within the first ten days of fighting Going well beyond all previous accounts David Glantz and Jonathan House now offer the definitive work on arguably the greatest battle of World War II Drawing on both German and Soviet sources Glantz and House separate myth from fact to show what really happened at Kursk and how it affected the outcome of the war Their access to newly released Soviet archival material adds unprecedented detail to what is known about this legendary conflict enabling them to reconstruct events from both perspectives and describe combat down to the tactical level The Battle of Kursk takes readers behind Soviet lines for the first time to discover what the Red Army knew about the plans for Hitler s offensive Operation Citadel relive tank warfare and hand to hand combat and learn how the tide of battle turned Its vivid portrayals of fighting in all critical sectors place the famous tank battle in its proper context Prokhorovka here is not a well organized set piece but a confused series of engagements and hasty attacks with each side committing its forces piecemeal Glantz and House s fresh interpretations demolish many of the myths that suggest Hitler might have triumphed if Operation Citadel had been conducted differently Their account is the first to provide accurate figures of combat strengths and losses and it includes 32 maps that clarify troop and tank movements Shrouded in obscurity and speculation for more than half a century the Battle of Kursk finally gets its due in this dramatic retelling of the confrontation that marked the turning point of the war on the Eastern Front and brought Hitler s blitzkrieg to a crashing halt

The Battle of Kursk David M. Glantz, Jonathan Mallory House, 1999 A study of the Battle of Kursk at Prokhorovka one of the largest tank engagements in world history which led to staggering losses including nearly 200 000 Soviet and 50 000 German casualties within the first ten days of fighting Drawing on both German and Soviet sources David M Glantz and Jonathan M House seek to separate myth from fact to show what really happened at Kursk and how it affected the outcome of World War II Their access to Soviet archive material adds detail to what is known about this conflict enabling them to reconstruct events from both perspectives and describe combat down to the tactical level

Ostkrieg Stephen G. Fritz, 2011-10-14 On June 22 1941 Germany launched the greatest land assault in history on the Soviet Union an attack that Adolf Hitler deemed crucial to ensure German economic and political survival As the key theater of the war for the Germans the eastern front consumed enormous levels of resources and accounted for 75 percent of all German casualties Despite the significance of this campaign to Germany and to the war as a whole few English language publications of the last thirty five years have addressed these pivotal events In Ostkrieg Hitler's War of Extermination in the East Stephen G Fritz bridges the gap in scholarship by incorporating historical research from the last several decades into an accessible comprehensive and coherent narrative His analysis of the Russo German War from a German perspective covers all aspects of the eastern front demonstrating the interrelation of military events economic policy resource exploitation and racial policy that first motivated the invasion This in depth account challenges accepted notions about World War II and
