Grau, 1996 counterinsurgency punctuated by moments of heady excitement and terror Colonel Grau the editor and translator has added his own commentary to produce a useful guide for commanders to meet the challenges of this kind of war and to help keep his fellow soldiers alive This book will also be of interest to the historian and general reader who will discover that advances in technology have had little impact on this kind of war and that many of the same tactics the British Army used on the Northwest Frontier still apply today **The BEAR WENT OVER the MOUNTAIN** Carolyn Booth Stanson, 2025-05-08 The mystery is solved the other side of the mountain was not all that the bear saw This charming picture book tells the rest of the story as the bear goes over the mountain and discovers all the surprises waiting for him Combined with singing the original folk song and counting the images on each page you can extend the story to the Other Side of the Mountain by imagining what the bear saw on the way back home Is there a mountain close to where you live A hill in your neighborhood A forest or a park Or just your own back yard all are perfect places for children to imagine new adventures and add to the Bear s story
