The Best We Can Get:

How to Get All Teachers to Become Like the Best Teachers Todd Whitaker, 2024-12-02 There are dramatic differences in the quality of teachers in every school Every building has teachers who consistently engage students and deliver high quality instruction Every building also has teachers with varying ranges of ability If all teachers could be more like the best teachers then we would have significant improvement in every school In this important book Todd Whitaker demonstrates how this can really be achieved With inspiration humor and practical advice Whitaker shares the qualities of the best teachers and how we can teach these qualities to others He shows how the best teachers emphasize the learning relationship focus only on what they can influence and use effective classroom management involving filtering proximity redirection and business mode He then explains how we can coach other teachers by showing not telling by creating subcultures and learning experiences and by leading the way Finally Whitaker describes the importance of hiring highly talented people who form new lines rather than fall in line He provides strategies for asking the right interview questions for choosing the right mentors and for selecting the best hosts for student teachers No matter how education changes there are always outstanding teachers making a difference We can grow our schools by helping even more teachers become exceptional
