**One Hundred Frogs** Hiroaki Sato, 1995-05-02 No other Asian poetic form has so intrigued and beguiled the English speaking world as the Japanese haiku Even before World War I such imagist poets as Ezra Pound Amy Lowell and John Gould Fletcher were experimenting with the form At that time Pound well described the haiku as an intellectual and emotional complex in an instant of time Indeed it is the haiku's sense of immediacy and its precision that continue to appeal to poets and poetry lovers today In recent decades there has been an upsurge of interest in the haiku leading to a number of critical studies of the form studies that have now culminated in the present book This insightful work not only considers the haiku itself but also the extremely important yet often ignored renga or linked verse form out of which the haiku grew No deep understanding of the haiku is possible without familiarity with the renga One Hundred Frogs begins with a detailed history and description of the renga and haiku Many renowned Japanese poets most notably Basho are represented in the wealth of translated poetry that illustrates the text To bring this history up to date a discussion of modern Japanese and Western haiku is included Next the author discusses the craft of translating renga and haiku and explores recent developments in the two forms offering a representative selection of modern works To reveal the myriad choices open to translators of renga and haiku the author provides an in depth analysis of one of Japan's most famous haiku Basho's poem about a frog in a pond and presents a compilation of over one hundred translations and variations of the poem The book closes with short anthologies of English language renga and haiku by contemporary Western poets that offer a tantalizing glimpse of the diversity of expression possible with these two forms An instructive celebration of the renga and haiku this volume furnishes a new perspective on the work of some of Japan's outstanding poets of old and lays a foundation for the

appreciation of the renga and haiku that are being written today      **Haiku in English** Jim Kacian, 2016-02-09 The first anthology to map the full range of haiku in the English tradition *Haiku in English* is an anthology of more than 800 brilliantly chosen poems that were originally written in English by over 200 poets from around the world Although haiku originated as a Japanese art form it has found a welcome home in the English speaking world This collection tells the story for the first time of Anglophone haiku charting its evolution over the last one hundred years and placing it within its historical and literary context It features an engaging introduction by former U S poet laureate Billy Collins and an insightful historical overview by leading haiku poet editor and publisher Jim Kacian The selections range from the first fully realized haiku in English Ezra Pound's *In a Station of the Metro* to plentiful examples by haiku virtuosos such as John Wills Marlene Mountain Nick Virgilio and Raymond Roseliep and to investigations into the genre by eminent poets like John Ashbery Allen Ginsberg and Seamus Heaney The editors explore the genre's changing forms and themes highlighting its vitality and its breadth of poetic styles and content Among the many poems on offer are organic form experiments by E E Cummings and Michael McClure evocations of black culture by Richard Wright and Sonia Sanchez and the seminal efforts of Jack Kerouac      *A Hundred Haiku* Geoffrey Orton, 2001-03 Many English speaking people enjoy the Japanese poetry form called Haiku Translations from the Japanese are difficult because the form has a strict format The first and third lines must have five syllables while the 2nd line has seven These Haiku are written in English while trying to preserve the unique Japanese outlook of philosophy humor or feelings of nature      American Haiku Toru Kiyochi, 2017-11-30 *American Haiku New Readings* explores the history and development of haiku by American writers examining individual writers In the late nineteenth century Japanese poetry influenced through translation the French Symbolist poets from whom British and American Imagist poets Amy Lowell Ezra Pound T E Hulme and John Gould Fletcher received stimulus Since the first English language hokku haiku written by Yone Noguchi in 1903 one of the Imagist poet Ezra Pound's well known haiku like poem *In A Station of the Metro* published in 1913 is most influential on other Imagist and later American haiku poets Since the end of World War II many Americans and Canadians tried their hands at writing haiku Among them Richard Wright wrote over four thousand haiku in the final eighteen months of his life in exile in France His *Haiku This Other World* ed Yoshinobu Hakutani and Robert L Tener 1998 is a posthumous collection of 817 haiku Wright himself had selected Jack Kerouac a well known American novelist like Richard Wright also wrote numerous haiku Kerouac's *Book of Haikus* ed Regina Weinreich Penguin 2003 collects 667 haiku In recent decades many other American writers have written haiku Lenard Moore Sonia Sanchez James A Emanuel Burnell Lippy and Cid Corman Sonia Sanchez has two collections of haiku Like the *Singing Coming off the Drums* Boston Beacon Press 1998 and *Morning Haiku* Boston Beacon Press 2010 James A Emanuel's *Jazz from the Haiku King* Broadside Press 1999 is also a unique collection of haiku Lenard Moore author of his haiku collections *The Open Eye* 1985 has been writing and publishing haiku for over 20 years and became the first African American to be elected as President of the Haiku Society of America

Origins of Mind Liz Swan,2012-12-22 The big question of how and why mindedness evolved necessitates collaborative multidisciplinary investigation Biosemiotics provides a new conceptual space that attracts a multitude of thinkers in the biological and cognitive sciences and the humanities who recognize continuity in the biosphere from the simplest to the most complex organisms and who are united in the project of trying to account for even language and human consciousness in this comprehensive picture of life The young interdiscipline of biosemiotics has so far by and large focused on codes signs and sign processes in the microworld a fact that reflects the field s strong representation in microbiology and embryology What philosophers of mind and cognitive scientists can contribute to the growing interdiscipline are insights into how the biosemiotic weltanschauung applies to complex organisms like humans where such signs and sign processes constitute human society and culture
