The Last Hypnotist:

The Hypnotist's Love Story Liane Moriarty, 2012-06-14 FROM THE 1 NEW YORK TIMES BESTSELLING AUTHOR OF BIG LITTLE LIES AND HERE ONE MOMENT A sharp and funny romantic tale O the Oprah Magazine Ellen O Farrell is a professional hypnotherapist who works out of the eccentric beachfront home she inherited from her grandparents It s a nice life except for her tumultuous relationship history She s stoic about it but at this point Ellen wouldn t mind a lasting one When she meets Patrick she s optimistic He s attractive single employed and best of all he seems to like her back Then comes that dreaded moment He thinks they should have a talk Braced for the worst Ellen is pleasantly surprised It turns out that Patrick s ex girlfriend is stalking him Ellen thinks Actually that s kind of interesting She s dating someone worth stalking She s intrigued by the woman s motives In fact she d even love to meet her Ellen doesn t know it but she already has **The Last Hypnotist** William Harwood, 2006 **The inside stories of The Hypnotherapist** Rene Lien, 2025-04-29 In the book he not only talks about the hours minutes and seconds that he experienced with his patients at work but also shares with his peers the little known anecdotes and unclear rules in the profession He also talks about life writing down his views on love the world and past lives he also talks about teaching as the principal of the Hong Kong School of Clinical Hypnosis he will talk with you about the growth process of teaching and learning and about his professionalism which is a collection of strange interesting sour and sweet **Hypnosis and Experience (Psychology Revivals)** Peter Sheehan, Kevin McConkey, 2015-03-27 The subject of hypnosis has not lost any of its ability to fascinate and intrigue and this holds equally true for both the layperson and the student of hypnotic behavior Phenomena of hypnosis range from simple tasks involving ideomotor response to more complex tasks involving substantial distortions of perceived reality such as age regression hallucination and amnesia Obviously with a topic so diverse and so interesting there are plenty of books around Originally published in 1982 what makes this title stand out is the authors focus instead of trying to survey the whole field and evaluate the full spectrum of theories about hypnosis they hone in on specific points of view with the aim of illustrating the nature of hypnotic phenomena A Hypnotist's Case Book Dr. Alex Erskine, 2018-02-27 HYPNOSIS is nothing new It was known long before Greek civilization existed or the foundations of the Pyramids were laid It probably dates back to before the dawn of history Over three thousand years ago it was cultivated and practised by the Hindoo Priesthood who perpetuated its secrets and mysteries by divulging them only to care fully selected youths destined to become priests in their turn and impressed with the same urgency of self preservation and secrecy as themselves I do not put forward hypnosis as a quack remedy a cure all It is not It is a scientific fact To what further end new research will lead it is impossible to say It is indeed improbable that the human mind will ever probe to the bottom of it for the subconscious mind is of the essence of life itself and to understand it fully might well be to wrest from Man the secret of Death and the power over it But this book is not to that extent speculative I have deliberately kept to facts within my own knowledge and practice I have tried to show how easily

this great science may be used by every man woman and child in the world for his own benefit Dr Alex Erskine Preface
