The Outer Limits The Brain Of Colonel Barham

Jon Abbott

The Outer Limits The Brain Of Colonel Barham:

The Spacesuit Film Gary Westfahl, 2014-01-10 Filmmakers employ various images to suggest the strangeness of outer space but protective spacesuits most powerfully communicate its dangers and the frailty of humans beyond the cradle of Earth. Many films set in space however forgo spacesuits altogether reluctant to hide famous faces behind bulky helmets and ill fitting jumpsuits. This critical history comprehensively examines science fiction films that portray space travel realistically and sometimes not quite so by having characters wear spacesuits. Beginning with the pioneering *Himmelskibet* 1918 and *Woman on the Moon* 1929 it discusses other classics in this tradition including *Destination Moon* 1950 *Riders to the Stars* 1954 and *2001 A Space Odyssey* 1968. C films that gesture toward realism but betray that goal with melodramatic villains low comedy or improbable monsters. D the distinctive spacesuit films of Western Europe Russia and Japan and E America's spectacular real life spacesuit film the televised Apollo 11 moon landing 1969

The Stuff of Science Fiction Gary Westfahl, 2022-10-07 While students and general readers typically cannot relate to esoteric definitions of science fiction they readily understand the genre as a literature that characteristically deals with subjects such as new inventions space robot and aliens. This book looks at science fiction in precisely this manner with twenty one chapters that each deal with a subject that is repeatedly addressed in science fiction of recent centuries. Based on a packet of original essays that the author assembled for his classes the book could serve as a supplemental textbook in science fiction classes but also contains material of interest to science fiction scholars and others devoted to the genre. In some cases chapters offer thorough surveys of numerous works involving certain subjects such as imagined vehicles journeys beneath the Earth and undersea adventures discovering intriguing patterns in the ways that various writers developed their ideas. When comprehensive coverage of ubiquitous topics such as robots aliens and the planet Mars is impossible chapters focus on major themes referencing selected texts. A conclusion discusses other science fiction subjects that were omitted for various reasons and a bibliography lists additional resources for the study of science fiction in general and the topics of each chapter

Performing Brains on Screen Fernando Vidal, 2025-10-01 *Performing Brains on Screen* deals with film enactments and representations of the belief that human beings are essentially their brains a belief that embodies one of the most influential modern ways of understanding the human. Films have performed brains in two chief ways by turning physical brains into protagonists as in the brain movies of the 1950s which show terrestrial or extra terrestrial disembodied brains carrying out their evil intentions or by giving brains that remain unseen inside someone's head an explicitly major role as in brain transplantation films or their successors since the 1980s in which brain contents are transferred and manipulated by means of information technology. Through an analysis of filmic genres and particular movies *Performing Brains on Screen* documents this neglected filmic universe and demonstrates how the cinema has functioned as a cultural space where a core notion of the contemporary world has been rehearsed and problematized

Encyclopedia of Early Television Crime Fighters Everett

Aaker,2024-10-17 Any episode of a crime or mystery series involves some or all of the following the perpetration of a crime its investigation the analytical process which involves the determination of the villain the arrest and trial of the culprit and the handing out of the appropriate punishment Such series involving the exploits of a wide variety of courageous heroes and heroines were very popular during the 1950s and they featured a host of actors and actresses including famous television detectives e g Raymond Burr those famous in other genres e g Boris Karloff Charles Bronson and over 250 other players with recurring roles This reference work lists every player who had a regular role in a crime or mystery series during the early era of television All covered series offered live or filmed episodes of a crime or mystery nature and all were shown on American television All series had either regular stars or a recognizable host Entries cover the player s real name family information and education how the player originally broke into show business the player s career preceding the series and his or her marriage children death date and film and television credits Appendices provide a catalog of American mystery series and a list of regular mystery series players whose roles began after December 31 1959 Monsters in the Machine Steffen Hantke,2016-06-20 During the 1950s and early 1960s the American film industry produced a distinct cycle of films situated on the boundary between horror and science fiction Using the familiar imagery of science fiction from alien invasions to biological mutation and space travel the vast majority of these films subscribed to the effects and aesthetics of horror film anticipating the dystopian turn of many science fiction films to come Departing from projections of American technological awe and optimism these films often evinced paranoia unease fear shock and disgust Not only did these movies address technophobia and its psychological social and cultural corollaries they also returned persistently to the military as a source of character setting and conflict Commensurate with a state of perpetual mobilization the US military comes across as an inescapable presence in American life Regardless of their genre Steffen Hantke argues that these films have long been understood as allegories of the Cold War They register anxieties about two major issues of the time atomic technologies especially the testing and use of nuclear weapons as well as communist aggression and or subversion Setting out to question expand and correct this critical argument Hantke follows shifts and adjustments prompted by recent scholarly work into the technological political and social history of America in the 1950s Based on this revised historical understanding science fiction films appear in a new light as they reflect on the troubled memories of World War II the emergence of the military industrial complex the postwar rewriting of the American landscape and the relative insignificance of catastrophic nuclear war compared to America s involvement in postcolonial conflicts around the globe **Societies in Space** Gary Westfahl,2024-08-29 Science fiction films and television programs about space travel have undergone a significant transformation since their inception In contrast to the early depictions of small spaceship crews on exploratory missions recent film and television portrayals depict much larger societies in space as well as the obstacles that arise with them This collection of essays examines many aspects of making space travel films from the process of screenwriting to the impact of

Greek myth on modern film with illuminating commentary on contemporary problems including class distinction racism and sexism Contributors to this volume including several extensively published scholars and science fiction writers analyze a wide variety of relevant science fiction films and television programs ranging from Star Trek Silent Running the Alien films and Japanese anime to more recent works like Battlestar Galactica Avatar Elysium The Martian Passengers and Ad Astra

No Cure for the Future Gary Westfahl, George Slusser, 2002-09-30 Offers a broad study of the history of medicine in science fiction and fantasy literature and film as well as detailed examinations of some of the field's greatest works *Irwin Allen Television Productions, 1964-1970* Jon Abbott, 2015-06-14 Before establishing himself as the master of disaster with the 1970s films The Poseidon Adventure and The Towering Inferno Irwin Allen created four of television's most exciting and enduring science fiction series Voyage to the Bottom of the Sea Lost in Space The Time Tunnel and Land of the Giants These 1960s series were full of Allen's favorite tricks techniques and characteristic touches and influenced other productions from the original Star Trek forward Every science fiction show owes something to Allen yet none has equaled his series pace excitement or originality This detailed examination and documentation of the premise and origin of the four shows offers an objective evaluation of every episode and demonstrates that when Irwin Allen's television episodes were good they were great and when they were bad they were still terrific fun

Gender in Science Fiction Films, 1964-1979 Bonnie Noonan, 2015-06-08 The 1950s era of science fiction film effectively ended when space flight became a reality with the first manned orbit of Earth in 1962 As the genre's wildly speculative depictions of science and technology gave way to more reality based representations relations between male and female characters reflected the changing political and social climates of the era Drawing on critical analyses film reviews and cultural commentaries this book examines the development of science fiction film and its representations of gender from the groundbreaking films of 1968 including 2001 A Space Odyssey Barbarella and Planet of the Apes through its often overlooked Middle Period which includes such films as Colossus The Forbin Project 1970 The Stepford Wives 1975 and A Boy and His Dog 1975 The author examines intersections of gender and race in The Omega Man 1971 and Frogs 1972 gender and dystopia in Soylent Green 1973 and Logan's Run 1976 and gender and computers in Demon Seed 1977 The big budget films of the late 1970s Close Encounters of the Third Kind Alien and Star Wars are also discussed **Motion Pictures** Library of Congress. Copyright Office, 1971

The Enigmatic Realm of **The Outer Limits The Brain Of Colonel Barham**: Unleashing the Language is Inner Magic
