The Oval Menace , Wives, Mothers & the Red Menace Mary Brennan,2011-05-18 In *Wives Mothers and the Red Menace* Mary Brennan examines conservative women s anti communist activism in the years immediately after World War II Brennan details the actions and experiences of prominent anti communists Jean Kerr McCarthy Margaret Chase Smith Freda Uteley Doloris Thauwald Bridges Elizabeth Churchill Brown and Phyllis Stewart Schlafly She describes the Cold War context in which these women functioned and the ways in which women saw communism as a very real danger to domestic security and American families Millions of women Brennan notes expanded their notions of household responsibilities to include the crusade against communism From writing letters and hosting teas to publishing books and running for political office they campaigned against communism and incidentally discovered the power they had to effect change through activism Brennan reveals how the willingness of these deeply conservative women to leave the domestic sphere and engage publicly in politics evinces the depth of America s postwar fear of communism She further argues that these conservative anti communist women pushed the boundaries of traditional gender roles and challenged assumptions about women as political players by entering political life to publicly promote their ideals *Wives Mothers and the Red Menace* offers a fascinating analysis of gender and politics at a critical point in American history Brennan s work will instigate discussions among historians political scientists and scholars of women s studies

The Mohole Mystery Hugh Walters,2020-11-24 After their expedition to Saturn Chris Godfrey and his friends were given the longest spell of leave they had ever had Every day they expected to hear about their next assignment from Sir George Benson Director of the United Nations Exploration Agency but when they tried to get in touch with him they found it was impossible Clearly something strange was going on When Sir George finally reappeared he had a startling proposition for them A new kind of expedition was to be launched not into space but into the depths of the earth The astronauts were about to become subterrannuts Or rather one of them was for only one man could enter the capsule which was to carry him down the Mohole the borehole which had been drilled twenty one miles into the earth to end in a huge underground cavern

The Public in Peril Henry A. Giroux,2017-08-07 This is one of the first books to thoroughly critique the rise of Trumpism and its potential impact nationally and globally One of the world s leading social critics Giroux offers new critiques of Trump and his early

Cabinet choices in the context of longer term trends including the rise of right wing populism the threat of planetary peril anti intellectual fervor the war on youth a narrowing political discourse deepening inequality and disposability authoritarianism the crisis of civic culture the rise of the mass incarceration state and more Giroux dissects the diverse forces that led to Trump s rise and points to pathways for resisting his authoritarian instincts Offering a new language of hope and possibility Giroux s optimism is rooted especially in the resurgence of progressive politics among youth Giroux reclaims the centrality of education to politics and boldly articulates a vision in which the radical imagination merges with civic courage as part of a broad based struggle for a radical democracy Deep inquiries into fast changing and pressing issues of our time makes this book the essential Giroux that citizens and students must read debate and act upon The China Threat Nancy Bernkopf Tucker,2014-03-04 Nancy Bernkopf Tucker confronts the coldest period of the cold war the moment in which personality American political culture public opinion and high politics came together to define the Eisenhower Administration s policy toward China A sophisticated multidimensional account based on prodigious cutting edge research this volume convincingly portrays Eisenhower s private belief that close relations between the United States and the People s Republic of China were inevitable and that careful consideration of the PRC should constitute a critical part of American diplomacy Tucker provocatively argues that the Eisenhower Administration s hostile rhetoric and tough actions toward China obscure the president s actual views Behind the scenes Eisenhower and his Secretary of State John Foster Dulles pursued a more nuanced approach one better suited to China s specific challenges and the stabilization of the global community Tucker deftly explores the contradictions between Eisenhower and his advisors public and private positions Her most powerful chapter centers on Eisenhower s recognition that rigid trade prohibitions would undermine the global postwar economic recovery and push China into a closer relationship with the Soviet Union Ultimately Tucker finds Eisenhower s strategic thinking on Europe and his fear of toxic anticommunist domestic politics constrained his leadership making a fundamental shift in U S policy toward China difficult if not impossible Consequently the president was unable to engage congress and the public effectively on China ultimately failing to realize his own high standards as a leader Recruits (Recruits) Thomas Locke,2017-02-14 For more than a decade twins Sean and Dillon Kirrel have felt pulled toward another world a place they have sketched out in detail and posted on the walls of their bedroom They are certain it is out there Soon after their seventeenth birthday they are approached by a clandestine scout To him Earth is just a distant and unmonitored outpost of human civilization But he explains that Sean and Dillon share a unique gift the ability to transfer instantly from place to place Transitors who are also twins are especially rare and so they are offered an opportunity to prove themselves as recruits to the human assembly If they don t succeed within thirty days their minds will be wiped Either they make the grade as inter planetary travelers or this never happened From the infinite imagination of Thomas Locke comes this otherworldly new series that will challenge young readers understanding of time space and human limitations **Identity in the Shadow of**
