Volume 15 of the *Collected Works of Florence Nightingale* *Wars and the War Office* picks up on the previous volume s recounting of Nightingale s famous work during the Crimean War and the

comprehensive analysis she did on its high death rates This volume moves on to the implementation of the recommendations that emerged from that research and to her work to reduce deaths in the next wars beginning with the American Civil War Nightingale's writings describe the creation of the Army Medical School the vast improvements made in the statistical tracking of disease and new measures for soldiers' welfare Her role in the formulation of the first Geneva Convention in 1864 is related along with her concern that voluntary relief efforts through the Red Cross not make war cheap Nightingale was decorated by both sides for her work in the Franco-Prussian War While much of her work concerned the mundane sending out of supplies we see also in her writing her emerging interest in militarism as the cause of war Her opposition to the Afghan War of her time and her work to provide nursing for the Egyptian campaigns the Zulu War and the start of the Boer War are also included

New Perspectives on Civil War-Era Kentucky John David Smith,2023-07-01 As a Unionist but also proslavery state during the American Civil War Kentucky occupied a contentious space both politically and geographically In many ways its pragmatic attitude toward compromise left it in a cultural no man's land The constant negotiation between the state's nationalistic and Southern identities left many Kentuckians alienated and conflicted Lincoln referred to Kentucky as the crown jewel of the Union slave states due to its sizable population agricultural resources and geographic position and these advantages coupled with the state's difficult relationship to both the Union and slavery ultimately impacted the outcome of the war Despite Kentucky's central role relatively little has been written about the aftermath of the Civil War in the state and how the conflict shaped the commonwealth we know today New Perspectives on Civil War Era Kentucky offers readers ten essays that paint a rich and complex image of Kentucky during the Civil War First appearing in the Register of the Kentucky Historical Society these essays cover topics ranging from women in wartime to Black legislators in the postwar period From diverse perspectives both inside and outside the state the contributors shine a light on the complicated identities of Kentucky and its citizens in a defining moment of American history

Shadows of the War Theodosia Bagot,1900 **Women's Diaries from the Civil War South** Sharon Talley,2023-08-18 Traditionally narratives of war have been male Sharon Talley writes In the pages that follow she goes on to disrupt this tradition offering close readings and comparative studies of fourteen women's diaries from

the Civil War era that illuminate women's experiences in the Confederacy during the war. While other works highlighting individual diaries exist, Talley notes that there has been a virtual explosion of published primary sources by women in recent years; this is the first effort of comprehensive synthesis of women's Civil War diaries to attempt to characterize them as a distinct genre. Deeply informed by autobiographical theory as well as literary and social history, Talley's presentation of multiple diaries from women of differing backgrounds illuminates complexities and disparities across female wartime experiences rather than perpetuating overgeneralizations gleaned from a single diary or preconceived ideas about what these diaries contain. To facilitate this comparative approach, Talley divides her study into six sections that are organized by location, vocation, and purpose: diaries of elite planter women; diaries of women on the Texas frontier; diaries of women on the Confederate border; diaries of espionage by women in the South; diaries of women nurses near the battlefield; and diaries of women missionaries in the Port Royal Experiment. When read together, these writings illustrate that the female experience in the Civil War South was not one but many. *Women's Diaries from the Civil War South: A Literary Historical Reading* is an essential text for scholars in women's studies, autobiography studies, and Civil War studies alike, presenting an in-depth and multifaceted look at how the Civil War reshaped women's lives in the South and how their diverse responses shaped the course of the war in return.

The Business of War James McCarty, Matthew Tapie, Justin Bronson Barringer, 2020-10-01
 The Business of War incisively interrogates the development and contemporary implications of the military industrial complex. It exposes the moral dangers of life in neoliberal economies dependent upon war making for their growth and brings the Christian tradition's abundance of resources into conversation with this phenomenon. In doing so, the authors invite us to rethink the moral possibilities of Christian life in the present day with an eye toward faithful resistance to the business of war and its influence in every aspect of our lives. In combining biblical, historical, theological, and ethical analyses of the business of war, the authors invite us to better understand it as a new moral problem that demands a new faithful response. With contributions from Pamela Brubaker, Stan Goff, Christina McRorie, Kara Slade, Won Chul Shin, David Swartz, Jonathan Tran, Myles Werntz, Matthew Whelan, Tobias Winright.
