Siting Culture The Anthropological Object On The Move:

Siting Culture Kirsten Hastrup, Karen Fog Olwig, 2005-06-20 Culture has been subject to critical debate in anthropology during the past decade and this is related to a shift in emphasis from the bounded local culture to transnational cultural flows. At the same time that cultural mobility is being emphasized, the people studied by anthropologists are recasting culture as a place of belonging as they construct local identities within global fields of relations. So far, much of the analysis of the role of place in culture has been carried out at a level of theoretical debate. *Siting Culture* argues that it is only through rich ethnographic studies that anthropologists may explore the significance of place in the global space of relations which mould the lives of people throughout the world. By examining the concept of culture through case studies from Europe, Africa, Oceania, Latin America and the Caribbean, it probes the methodological and theoretical implications of the divergent scholarly and popular concepts of culture.

The Puerto Rican Nation on the Move Jorge Duany, 2003-10-15 Puerto Ricans maintain a vibrant identity that bridges two very different places: the island of Puerto Rico and the U.S. mainland. Whether they live on the island, in the States, or divide time between the two, most imagine Puerto Rico as a separate nation and view themselves primarily as Puerto Rican. At the same time, Puerto Ricans have been U.S. citizens since 1917 and Puerto Rico has been a U.S. commonwealth since 1952. Jorge Duany uses previously untapped primary sources to bring new insights to questions of Puerto Rican identity, nationalism, and migration. Drawing a distinction between political and cultural nationalism, Duany argues that the Puerto Rican nation must be understood as a new kind of translocal entity with deep cultural continuities. He documents a strong sharing of culture between island and mainland, with diasporic communities tightly linked to island life by a steady circular migration. Duany explores the Puerto Rican sense of nationhood by looking at cultural representations produced by Puerto Ricans and considering how others. American anthropologists, photographers, and museum curators, for example, have represented the nation. His sources of information include ethnographic fieldwork, archival research, interviews, surveys, censuses, newspaper articles, personal documents, and literary texts.

Methodologies of Mobility Alice Elliot, Roger Norum, Noel B. Salazar, 2017-05-01 Research into mobility is an exciting challenge for the social sciences that raises novel social, cultural, spatial, and ethical questions. At the heart of these empirical and theoretical complexities lies the question of methodology: how can we best capture and understand a planet in flux? *Methodologies of Mobility* speaks beyond disciplinary boundaries to the methodological challenges and possibilities of engaging with a world on the move. With scholars continuing to face different forms and scales of mobility, this volume strategically traces innovative ways of designing, applying, and reflecting on both established and cutting-edge methodologies of mobility.

On the Move for Love Sealing Cheng, 2011-11-29 Since the Korean War, Gijichon U.S. military camp towns have been fixtures in South Korea. The most popular entertainment venues in Gijichon are clubs attracting military clientele with duty-free alcohol, music shows, and women entertainers. In the 1990s, South Korea's rapid economic advancement combined with the stigma and low pay

Intimate Migrations Deborah A. Boehm, 2012 In her research with transnational Mexicans Deborah A Boehm has often asked individuals if there were no barriers to your movement between Mexico and the United States where would you choose to live Almost always they desire the freedom to come and go Yet the barriers preventing such movement are many Because of the United States rigid immigration policies Mexican immigrants often find themselves living long distances from family members and unable to easily cross the U S Mexico border Transnational Mexicans experience what Boehm calls intimate migrations flows that both shape and are structured by gendered and familial actions and interactions but are always defined by the presence of the U S state *Intimate Migrations* is based on over a decade of ethnographic research focusing on Mexican immigrants with ties to a small rural community in the Mexican state of San Luis Potosi and several states in the U S West By showing how intimate relations direct migration and by looking at kin and gender relationships through the lens of illegality Boehm sheds new light on the study of gender and kinship as well as understandings of the state and transnational migration
