Rauthmann, Ryne Sherman, David C. Funder, 2020-07-01 The psychological assessment of situations is a new and rapidly developing area of research particularly within the fields of personality and social psychology This volume compiles state of the art knowledge on psychological situations in chapters written by experts in their respective research areas Bringing together historical reviews theoretical pieces methodological descriptions and empirical applications this volume is the definitive go to source for a psychology of situations **Meanings of Mobility** Leah Schmalzbauer, 2023-07-18 Over the past twenty years elite colleges and universities enacted policies that reshaped the racial and class composition of their campuses and over the past decade Latinos college attendance notably increased While discussions on educational mobility often focus on its perceived benefits that it will ultimately lead to social and economic mobility less attention is paid to the process of making it and the challenges low income youth experience when navigating these elite spaces In Meanings of Mobility sociologist Leah C Schmalzbauer explores the experiences of low income Latino youth attending highly selective elite colleges To better understand these experiences Schmalzbauer draws on interviews with 60 low income Latino youth who graduated or were set to graduate from Amherst College one of the most selective private colleges in the United States The vast majority of these students were the first in their immigrant families to go to college in the U S She finds that while most of the students believed attending Amherst provided them with previously unimaginable opportunities adjusting to life on campus came with significant challenges Many of the students Schmalzbauer spoke with had difficulties adapting to the cultural norms at Amherst as well as with relating to their non Latino non low income peers The challenges these students faced were not limited to life on campus As they attempted to adapt to Amherst many felt distanced from the family and friends they left behind who could not understand the new challenges they faced The students credit their elite education for access to extraordinary educational and employment opportunities However their experiences while in college and afterward reveal that the relationship between educational and social mobility is much more complicated and less secure than popular conversations about the American Dream suggest Many students found that their educational attainment was not enough to erase the core

challenges of growing up in a marginalized immigrant family many were still poor faced racism and those who were undocumented or had undocumented family members still feared deportation Schmalzbeauer suggests ways elite colleges can better support low income Latino students and lower the emotional price of educational mobility including the creation of immigration offices on campus to provide programming and support for undocumented students and their families She recommends educating staff to better understand the centrality of family for these students and the challenges they face as well as educating more privileged students about inequality and the life experiences of their marginalized peers Meanings of Mobility provides compelling insights into the difficulties faced by low income Latinos pursuing educational and social mobility in America s elite institutions **Hearings** United States.
