Hollywood and the CIA Oliver Boyd Barrett, David Herrera, James Baumann, 2011-03 This book investigates representations of the Central Intelligence Agency CIA in Hollywood films and the synergies between Hollywood product U S military defense interests and U S foreign policy As probably the best known of the many different intelligence agencies of the US the CIA is an exceptionally well known national and international icon or even brand one that exercises a powerful influence on the imagination of people throughout the world as well as on the creative minds of filmmakers The book examines films sampled from five decades the 1960s 1970s 1980s 1990s and 2000s and explores four main issues the relative prominence of the CIA the extent to which these films appeared to be overtly political the degree to which they were favorable or unfavorable to the CIA and their relative attitude to the business of intelligence A final chapter considers the question do these Hollywood texts appear to function ideologically to normalize the CIA If so might this suggest the further hypothesis that many CIA movies assist audiences with reconciling two sometimes fundamental opposites often gruesome covert CIA activity for questionable goals and at enormous expense on the one hand and the values and procedures of democratic society on the other This interdisciplinary book will be of much interest to students of the CIA Intelligence Studies media and film studies US politics and IR Security Studies in general
