Batt, Katarzyna Wolczuk, 2013-01-11 The papers that comprise this collection examine the role of competing European national ethnic and regional identities over the introduction of new regional levels of government in the former Soviet and now Central and Eastern European states **The Politics of a Disillusioned Europe** André Liebich, 2021-11-16 Moving from the fall of the Berlin Wall in 1989 to the present day this book traces the trajectory of the six East Central European former satellites of the Soviet Union Poland Hungary the Czech Republic Slovakia Romania Bulgaria that have joined the European Union It seeks in particular to explain these countries disenchantment with the return to Europe in spite of their significant advances The book proceeds country by country and then devotes chapters to some contemporary issues such as minorities migration and the relations of these new members with the European Union as a whole The book eschews theory and is intended for a general audience including students at all levels in political science and history classes devoted to the EU and to contemporary Europe and to an academic and practitioner audience interested in world affairs and the evolution of the European Union The book strives to fill a persistent knowledge gap in the English speaking world concerning East Central Europe and to offer fresh insights about the region in the context of contemporary geopolitics Collision and Collusion

Janine R. Wedel, 2015-03-17 When the Soviet Union's communist empire collapsed in 1989 a mood of euphoria took hold in the West and in Eastern Europe. The West had won the ultimate victory; it had driven a silver stake through the heart of Communism. Its next planned step was to help the nations of Eastern Europe to reconstruct themselves as democratic free market states and full partners in the First World Order. But that as Janine Wedel reveals in this gripping volume was before Western governments set their poorly conceived programs in motion. *Collision and Collusion* tells the bizarre and sometimes scandalous story of Western governments' attempts to aid the former Soviet block. He shows how by mid-decade Western aid policies had often backfired, effectively discouraging market reforms and exasperating electorates who remarkably had voted back in the previously despised Communists. *Collision and Collusion* is the first book to explain where the Western dollars intended to aid Eastern Europe went and why they did so little to help. Taking a hard look at the bureaucrats, politicians, and consultants who worked to set up Western economic and political systems in Eastern Europe, the book details the extraordinary costs of institutional ignorance, cultural misunderstanding, and unrealistic expectations. **Central and Southeast European Politics since 1989** Sabrina P. Ramet, 2010-02-18 The only textbook to provide a complete introduction to post-1989 Central and Southeast European politics, this dynamic volume provides a comprehensive account of the collapse of communism and the massive transformation that the region has witnessed. It brings together 23 leading specialists to trace the course of the dramatic changes accompanying democratization. The text provides country-by-country coverage, identifying common themes and enabling students to see which are shared throughout the area, giving them a sense of its unity and comparability whilst strengthening understanding around its many different trajectories. The dual thematic focus on democratization and Europeanization running through the text also helps to reinforce this learning process. Each chapter contains a factual overview to give the reader context concerning the region, which will be useful for specialists and newcomers to the subject alike. **Fin de Millénaire Budapest** Judit Bodnár, 2001 *Fin de Millénaire Budapest* combines historical narratives and ethnographic accounts with quantitative evidence to create a detailed picture of a city subjected to the forces of great local and global change. In the privatizing of public space, the decline of manufacturing, the rapid growth of services, and the opening of opportunities for entrepreneurs, Bodnár captures global urban patterns with a distinct central European accent. In particular, she shows tensions between the liberating and fragmenting effects of the increasingly private use of urban space and some ways in which the new urban patterns both resemble and transcend cultural patterns from Budapest's socialist past. **BOOK JACKET**
