Heinemann,Antonette M. Zeiss,2012-12-06 The idea of teamwork in health care emerged at several times during the th 20 century as the result of shifts in the nature and demands of health care and societal needs Examples include medical and surgical teams serving the military in World War II primary care teams staffing Community Health Centers created by President Johnson s War On Poverty and geriatric care teams established to serve the rapidly growing number of aging citizens Collaborative teamwork surfaced as a rational solution to health care needs but political and economic consensus to support widespread implementation was lacking The increasing complexity of providing health care seemed best served by the skills and efforts of interdisciplinary teams but such care was viewed as expensive so evaluation of its effectiveness became essential There were major problems in conducting such evaluation however First no clear theory guided the concept and practice of teamwork Early attempts to employ theoretical constructs explaining the behavioral and organizational phenomena of teamwork borrowed from theories of group dynamics communication organizational development and general systems Further few reliable validated instruments existed to evaluate team process function or effectiveness The best early efforts at research and evaluation came from academic centers funded by the Office of Interdisciplinary Programs of the Bureau of Health Professions 1975 78 and from the Veterans Affairs Interprofessional Team Training Development Program **Look Forward Beyond Lean and Six Sigma** Robert Dirgo,2005-12-15 This book

perpetuating improvement that is ingrained in the corporate culture Any business serious about improvement is going to consider these methodologies in the overall scope of their operations and the unique benefits they bring to the table This book shows that for unbeatable sustained improvement they need to be intertwined with the Look Forward methodology
