Slavery Colonialism And Racism:

Racist Trademarks Malte Hinrichsen, 2012 Since the beginning of commodity culture products have been marketed with images reflecting racist concepts of otherness Using the prominent examples of three companies Uncle Ben's Sarotti and Banania this book examines how racist trademark figures were established in the U S Germany and France and built on nation specific processes of racial stereotyping While it finds that the three figures mirror their national histories of slavery Orientalism and colonialism the book reveals that their paths through popular culture also followed strikingly similar patterns Conceived in an era of overt racism each symbol was challenged by social movements over the course of the 20th century and became increasingly marginalized in promotional activities In the early 2000s however all three figures were relaunched with supposedly new makeovers hitting once again at the heart of commodity culture and illustrating the subtle prevalence of racist stereotypes Series Racism Analysis Series A Studies Vol 3 **Slavery, Colonialism, and Racism**, 1974

Slavery, Colonialism, and Racism Sidney W. Mintz, 1974 **Slavery, Colonialism, and Racism**, 1974 Black World/Negro Digest, 1975-12 Founded in 1943 Negro Digest later Black World was the publication that launched Johnson Publishing During the most turbulent years of the civil rights movement Negro Digest Black World served as a critical vehicle for political thought for supporters of the movement Introduction to Sociological Theory Michele Dillon, 2009-09-22

Combining carefully chosen primary quotes with extensive discussion and everyday illustrative examples this book provides an in depth introduction to classical and contemporary theory Uses a wide range of newspaper examples to illustrate the relevance to sociological theory Contains excerpts from theorists primary texts Includes chapter specific glossaries of all theoretical concepts discussed in the book Short biographies and historical timelines of significant events provide context to various theorists ideas Incorporates a range of pedagogical features Supporting website includes multiple choice and essay questions PowerPoint slides a quotation bank and other background materials Visit www.wiley.com/go/dillon for additional student and instructor resources **Settler Colonialism, Race, and the Law** Natsu Taylor Saito, 2020-03-10 How taking Indigenous sovereignty seriously can help dismantle the structural racism encountered by other people of color in the United States Settler Colonialism Race and the Law provides a timely analysis of structural racism at the intersection of law and colonialism Noting the grim racial realities still confronting communities of color and how they have not been alleviated by constitutional guarantees of equal protection this book suggests that settler colonial theory provides a more coherent understanding of what causes and what can help remediate racial disparities Natsu Taylor Saito attributes the origins and persistence of racialized inequities in the United States to the prerogatives asserted by its predominantly Angloamerican colonizers to appropriate Indigenous lands and resources to profit from the labor of voluntary and involuntary migrants and to ensure that all people of color remain in their place By providing a functional analysis that links disparate forms of oppression this book makes the case for the oft cited proposition that racial justice is indivisible focusing particularly on the

importance of acknowledging and contesting the continued colonization of Indigenous peoples and lands Settler Colonialism Race and the Law concludes that rather than relying on promises of formal equality we will more effectively dismantle structural racism in America by envisioning what the right of all peoples to self determination means in a settler colonial state

Racism and Colonialism R.J. Ross, 2012-12-06 1 REFLECTIONS ON A THEME by ROBERT ROSS This book the fourth in the series Comparative Studies in Overseas History and like its predecessors the product of a symposium held by the Leiden Centre for the History of European Expansion is organised around a single theme the relationship between the ideological structures of domination and oppression that have come to be called racism and the political and economic ones which grew out of Europe's conquering and ruling much of the rest of the world By racism we mean those systems of thought in which group characteristics of human beings of a non somatic nature are considered to be fixed by principles of descent and in which in general physical attributes other than those of sex are the main sign by which characteristics are attributed In addition almost by definition the systems of thought entailed in this require that there is a hierarchy of the various races and that those people in the lower ranks of that hierarchy are seriously disadvantaged at least if the proponents of racist thought are able to impose their will on the society in which they live The exclusion of the discrimination of women from the concept of racism should not be thought as entailing that racist and sexist ideas do not have much in common since both derive from essentially biological determinism and indeed 2 racist societies have historically almost invariably been strongly sexist

The Memory of Power and Abuse of Power Franziska Metzger, Paul Oberholzer, Hans Zollner, 2025-09-08 This volume approaches the memory of abuses of power in past and present societies from a transdisciplinary perspective On the one hand methodological approaches and schemes of analysis are developed from the point of view of philosophy and theory of history history didactics literary studies anthropology Church and religious history On the other hand the contributions deal with case studies that pay special attention to the Holocaust to mass violence and war the history of slavery missionary history and sexual abuse The focus is on narratives of memory politics of history the relation between historiography public memory restitution and reparation but also on empowerment and participation in civil society and by victims of violence in the creation of public memory spaces of commemoration and memorials regarding instances of abuse of power

Slavery and Race Julia Jorati, 2024 Millions of Africans were enslaved and transported to the Americas in the eighteenth century Europeans many of whom viewed themselves as enlightened endorsed funded legislated and executed the slave trade This atrocity had a profound impact on philosophy but historians of the discipline have so far neglected to address the topics of slavery and race Many authors including enslaved and formerly enslaved Black authors used philosophical ideas to advocate for abolition analyze racist attitudes and critique racial bias Other authors attempted to justify the transatlantic slave trade by advancing philosophical defenses of racial chattel slavery Slavery and Race Philosophical Debates in the Eighteenth Century explores these philosophical ideas and arguments with a focus on the role race played in discussions of slavery In

doing so author Julia Jorati reveals how closely associated Blackness and slavery were at that time and how many White people viewed Black people as naturally destined for slavery In addition to examining well known authors like David Hume Immanuel Kant and Jean Jacques Rousseau Jorati also discusses less widely studied philosophers like Quobna Ottobah Cugoana Lemuel Haynes and Olympe de Gouges By revealing important aspects of debates about slavery in North America and Europe this book and its companion volume on the sixteenth and seventeenth centuries are valuable resources for readers interested in a more complete history of early modern philosophy

anti colonialist struggle The End of the Supplication contends that Black freedom struggles are anti colonial movements against anti Blackness and the permutations of slavery and as such they are ill served by a dominant Civil Rights discourse that escapes neither the paternalism of white abolitionism nor the caricatures of minstrelsy The book traces the roots of the white supremacist ideology behind the disarmed supplicant negro figure and it shows how this ideology continues to inform present liberal presentations of Black people as passive subjects at the mercy of white power which only reinforces the relatively light consequences white supremacists generally incur for harming Black people These discussions lead to the conclusion that in our contemporary context of rising openly white supremacist politics the figure of the supplicant negro must be definitively destroyed in order to make way for more effective resistance to anti Black racism This book is a must read for students and researchers interested in colonialism and decolonization diaspora studies critical race and whiteness studies African American studies Black studies and Indigenous studies It is also of keen interest for anyone frustrated with the still recurring admonition to go slow when it comes to eradicating structural racism

Race and Identity in Hispanic America Patricia Reid-Merritt, Michael S. Rodriguez, 2020-04-03 This book offers a historical and comparative overview of the evolution of racial classifications in the United States Latin America and the Caribbean The Hispanicization of America is precipitating a paradigm shift in racial thinking in which race is no longer defined by distinct characteristics but rather is becoming synonymous with ethnic cultural identity Traditionally assimilation has been conceived of as a unidirectional and racialized phenomenon Newly arrived immigrant groups or longstanding minority indigenous populations were Americanized in confining their racial and ethnic natures to the private sphere and adopting in the public sphere the cultural mores norms and values of the dominant cultural racial group In contrast the Hispanicization of America entails the horizontal assimilation of various groups from Spanish speaking countries throughout the Western Hemisphere and Caribbean into a pan ethnic Hispanic Latino identity that also challenges the privileged position of whiteness as the primary and exclusive referent for American identity Instead of focusing on one Hispanic group ethnic identity or region this book chronicles the development of racial identity across the largest Hispanic groups throughout the United States
