Sled Driver Brian Shul,1992 Hexult Perry Aylen,2011-05-17 The Earth is in another ice age and civilisation is restarting in a future so distant that the only traces left of our time are a few precious shards of glass When the seas rose and the earth froze much knowledge was lost Life on Hexult is about to change with the arrival of the new young wizards and their strong magic the new magic they call science Sail with Aulf across the ice through the frozen breath of the deadly Vajra crevasse and between the quarrelling isles of Hexult *Maximum Ice* Kay Kenyon,2008-12-10 Zoya Kundara has lived on the space vessel Star Road for two hundred fifty years As its Ship Mother kept alive in a state of pseudoimmortality she has provided wisdom and counsel to succeeding generations of its crew self exiled survivors of earth s great plague But now to escape the ravages of space radiation the giant starship has returned to earth only to discover a world on the verge of extinction its barren surface blanketed in a crystalline substance that resembles ice and that is slowly inexorably encapsulating the planet Zoya is chosen as emissary to this strange new earth and now she must approach its denizens and find a suitable home for her desperate crew among the shrinking lands But what she finds shakes Zoya to her core groups of humans huddled like moles in underground techno warrens called preserves and a pseudospiritual order known as the Ice Nuns who seek control of the physics defying crystals and enslave their disciples in their crazed quest for truth For on this once green land Ice and the science behind it are now the only God and mastering this grand ecology of information the only higher calling Allies are few and far between but somehow Zoya must uncover the secrets of Ice and halt its expansion That is if the snow witches don t get her first *Deadly Cold* Jed O'Dea,2014-10-29 The earths average temperature suddenly dropped 20 degrees Staying warm became critical so why would some organization want to destroy our ability to stay warm Literally millions of people will freeze to death unless Tucker and Maya uncover the mystery in time We the people of this planet Earth were unprepared We had no defense against the confluence of events that transpired We were vulnerable to natural events and a psychopath who took advantage of our vulnerabilities A year of evilness damn near killed us all
