Silent Cities New York Jessica Ferri, 2020-05-01 New Yorkers have always been pressed for space in life and in death Central Park is synonymous with New York City But without Green Wood Cemetery located in South Brooklyn Central Park would have never existed Founded in 1838 Green Wood became the city s most popular tourist attraction The cemetery was so popular that urban planners challenged architects to come up with plans for a separate green space for Manhattan Hence both Central Park founded in 1857 and Brooklyn s Prospect Park in 1867 were born Green Wood presented not only a place to bury the dead but a meditative haven away from the hustle and bustle of the city Other cemeteries followed in the park style including Sleepy Hollow and Woodlawn New York s changing cultural landscape made Ferncliff Cemetery one of the most coveted places to spend eternity with the rising popularity of Westchester County and suburban living New Yorkers even secured a place for the four legged members of the family with Hartsdale Pet Cemetery now the largest and oldest pet cemetery in the United States From the movers and shakers of New York society to corrupt political bosses and mafiosi Jazz legends and a Brooklyn native son who returned to Green Wood as one of the most famous artists of the 20th century the stories of the permanent residents of these cemeteries are just as diverse and vibrant as the city itself To travel through the cemeteries of New York is to travel through the hidden history of what some consider to be the greatest city in the world

Michael Ream, 2012-07-18. From historic sites and charming villages to world-class dining, Michael Ream provides a set of travel itineraries for exploring all aspects of the state. Bordered on the east by picturesque bluffs overlooking the Mississippi River and to the west by the Loess Hills stretched out along the Missouri River, you'll find tucked among the swaths of corn a slower pace of life. From historic sites and charming villages to

world class dining Michael Ream provides a set of travel itineraries for exploring all aspects of the state More than 100 full color photos bring these varied venues to life **Notes from the Balkans** Sarah F. Green, 2016-09-26 Maps and borders notwithstanding some places are best described as gaps places with repeatedly contested boundaries that are wedged in between other places that have clear boundaries This book explores an iconic example of this in the contemporary Western imagination the Balkans Drawing on richly detailed ethnographic research around the Greek Albanian border Sarah Green focuses her groundbreaking analysis on the ambiguities of never quite resolving where or what places are One consequence for some Greek peoples in this border area is a seeming lack of distinction but in a distinctly Balkan way In gaps which are never empty marginality is in contrast with conventional understandings not a matter of difference and separation it is a lack thereof Notes from the Balkans represents the first ethnographic approach to exploring the Balkans as an ideological concept Green argues that rather than representing a tension between West and East the Balkans makes such oppositions ambiguous This kind of marginality means that such places and peoples can hardly engage with multiculturalism Moreover the region s ambiguity threatens clear modernist distinctions The violence so closely associated with the region can therefore be seen as part of continual attempts to resolve the ambiguities by imposing fixed separations And every time this fails the region is once again defined as a place that will continually proliferate such dangerous ambiguity and could spread it somewhere else
