Skateboard Practice Mary Laycock, Peggy McLean, 1979-11-01 **Surfing, Street Skateboarding, Performance, and Space** Hunter H. Fine, 2018-09-15 Surfing Street Skateboarding Performance and Space On Board Motility draws from critical cultural studies political philosophy postcolonial studies urban sociology and poststructuralist theory in the context of human communication and performance to construct an epistemology of riding boards This book ponders why we move the way we do and examines the ways in which movements communicate developing as a result a theoretical perspective or board motility that is gestural and fluid moving in relation to shifting social and physical landscapes By combining the discourses and practices of critical theory and physical movement this text presents a sustained analysis of radical political philosophy In the book the symbolic narratives associated with each physical practice are deconstructed as their theoretical counterparts are thoroughly established Then through performance the author narrows the divide between these two forms of thinking verbal and nonverbal outlining and embodying an ontological and epistemological stake in the process that emerges from riding boards on both waves and streets Children, Teachers, and Mathematics David Allen Thomas, 1991 This text provides an overview of the teaching of mathematics in America today It includes practical suggestions as to how educators and parents can utilize resources to meet the challenges of the 1990s covers the Van Hiele model of learning geometry international comparisons and more **El-Hi Textbooks and Serials in Print**, 2006 Teenagers, Teachers, and Mathematics David Allen Thomas, 1992 **Word Problems** Bob Olenych, 2003-06 Teachers for grades 4 6 can use this workbook containing more than 40 reproducible pages to help their students get started on solving mathematical word problems for addition subtraction multiplication and division **Primary Maths Practice and Homework Book 4** Greg Weeks, 2011-09-30 Active Maths Practice Homework 4 is arranged in units which provide an open ended task for the week exercises in mental computation review of concepts tackled in the previous week and ample practice of the current week s work Active Maths Practice Homework 4 is ideal for homework or extra practice in the classroom *El-Hi textbooks in print* R. stories of insurgent play are stories of alternative ways of inhabiting cities stemming from the widespread human desire and need for play for joy and for sociality Insurgent Play draws upon examples from street skateboarding Street skateboarding disrupts the city in the pursuit of play enlivens patches of space through temporary claims and initiates encounters with authorisers property owners and citizens gravid with hostility with instants of wonder Insurgence is a way of being and the desire for insurgent play cannot be placated by better urban planning or formal expertise Nor will multiplying designated play spaces creative precincts and flexible public spaces stop people seeking out space to create their own worlds of disruption The book makes four arguments First insurgent play is bodily expression that can challenge disrupt and transgresses dominant ways of city making Second insurgent play takes us to parts of the urban landscape that we might not otherwise go politics we might not otherwise recognise and encounters we might otherwise overlook Third claims on the city made through insurgent play enliven urban space through transformative power In this way these claims territorialise patches of the built environment intended for other uses Last insurgent play space is generated from below never above Insurgent play shapes and is shaped by identities that position adherents in opposition to prevailing urban orders
