physically active contributes to the development of physical competence and fitness as well as to the child's cognitive, social and emotional development. Physical Education (PE) plays a crucial role in the holistic education and development of children. Yet in many schools from marginalised neighbourhoods PE is not given the recognition and importance it deserves. For this reason the KaziKidz teaching material was developed for teachers, principals, school staff or for those responsible from the Department of Education in order to contribute to and support the quality of PE in these schools. The exercises and games in this book are easy to use, do not require a lot of material and are met with much joy and enthusiasm by the learners. The teaching material was developed by a team of South African and Swiss experts. The lessons meet the requirements of the South African Curriculum and Assessment Policy Statement (CAPS) and are supported by the Department of Education Eastern Cape. We hope you enjoy the lessons.

This workbook expands upon the author's *Teaching Children with Autism to Mind Read: A Practical Guide* to present the most effective approaches, strategies and practical guidelines to help alleviate social and communication problems in individuals with Autism Spectrum Disorders (ASD). It complements the best-selling *Teaching Children with Autism to Mind Read: A Practical Guide* for use in practical settings. It answers the need for more training of professionals in early interventions for children assessed with ASD called for by the National Plan for Autism. Written by a team of experts in the field, it covers issues such as how to interpret facial expressions, how to recognize feelings of anger, sadness, fear and happiness, how to perceive how feelings are affected by what happens and what is expected to happen, how to see things from another person's perspective and how to understand another person's knowledge and beliefs.

The emotional content spans the gamut from hilarious to
