Understanding the "victory Disease" from the Little Bighorn to Mogadishu and Beyond Timothy Karcher, 2004 As a result of the national strength of the United States US and the demonstrated prowess of her military US forces are quite susceptible to falling prey to the effects of the Victory Disease The Victory Disease brings defeat to a previously victorious nation or military through a compounding of three basic symptoms The symptoms of the Victory Disease are arrogance complacency and the habit of using established patterns to solve military problems These symptoms are evident in many military failures The growth of the Victory Disease can best be analyzed through the study of historical examples In these examples the symptoms of the Victory Disease become quite clear This monograph uses the 1876 Battle of the Little Bighorn and the 1993 actions of Task Force Ranger in Mogadishu Somalia to highlight the symptoms and effect of the Victory Disease The overall goal of studying the Victory Disease is to learn how to avoid succumbing to its effects thus seeking a vaccination to this debilitating disease The only real vaccine for the Victory Disease is found in increased study of military history in the Officer Education System particularly focusing on campaigns and battles where defeat may be attributed to the Victory Disease Thus simple awareness of the problem provides one with the ability to avoid falling prey to the Victory Disease

the history of America's native peoples and their contacts with those seeking to settle or claim a new land has often been marked by violence. The sites of these conflicts, unlike many sites related to the American Revolution and the War Between the States, are often difficult to locate and information on these battles is frequently sketchy or unclear. This reference work provides essential information on these sites. The arrangement is by state with sections for Canada and Mexico. Each entry has information about how to find the site, tours, museums, and resources for further study. In addition, there is a chronological list of battles and other encounters between Indians and non-Indians, including dates, location in the text, and the larger conflict of which each battle was a part. There is an index of battle locations and an index of prominent people involved. The bibliography and site listings are cross-referenced for further research.

General Custer, Libbie Custer and Their Dogs Brian Patrick Duggan, 2019-03-22

General George Armstrong Custer and his wife Libbie Custer were wholehearted dog lovers. At the time of his death at Little Bighorn, they owned a rollicking pack of 40 hunting dogs, including Scottish Deerhounds, Russian Wolfhounds, Greyhounds, and Foxhounds. Told from a dog owner's perspective, this biography covers their first dogs during the Civil War and in Texas, hunting on the Kansas and Dakota frontiers, entertaining tourist buffalo hunters, including a Russian Archduke, English aristocrats, and P. T. Barnum, all of whom presented the general with hounds. Custer's attack on the Washita village when he was accused of strangling his own dogs and the 7th Cavalry's march to Little Bighorn, with an analysis of rumors about a Last Stand dog. The Custers' pack was rehomed after his death in the first national dog rescue effort. Well illustrated, the book includes an appendix giving depictions of the Custers' dogs in art, literature, and film.
