

# TYPES OF SLIP-FORM CONSTRUCTION

## 1-VERTICAL SLIP-FORM

In vertical slip forming, the concrete form may be surrounded by a platform on which workers stand, placing steel reinforcing rods into the concrete and ensuring a smooth pour. Together, the concrete form and working platform are raised by means of hydraulic jacks. Generally, the slip-form rises at a rate which permits the concrete to harden by the time it emerges from the bottom of the form.

### VERTICAL SLIP FORM
