*The Great Steel Strike and Its Lessons* William Z. Foster, 2018-12-18 Trade unionist and Marxist politician William Z Foster explains the organization and failure of the steel strike in 1919 an action which saw much of America's metal industry grind to a halt The metal industries had owing to great leaps in technological advancement shed many jobs during the early 20th century This precarious situation plus the fact that unions had been curbed after a number of violent actions in the 1890s led to the situation of laborers becoming unbearable Shortly after Armistice Day marked the end of World War I a surge of discontentment was accompanied by organization of labor and strike action Although successful for a number of weeks to the point where President Woodrow Wilson had to intervene and placate the workers on strike the owners of the mills mounted an effective campaign which eroded public support for the strikers Police brutality against striking steelworkers was recorded with several such incidents being unprovoked The Amalgamated Association of Iron Steel and Tin Workers was unable to counter this opposition and in January of 1920 the strike collapsed Foster offers a clear and frank narration of the strike from the perspective of a man strongly in favor of the laborers In the wake of the 1919 strike continuing advances in steelmaking obsoleted the need for labor in the creation of raw steel in the 1920s and 1930s quantities of steel produced rose while the numbers of workers in the industry continued to plummet

[Pittsburgh and the Great Steel Strike of 1919](#) Ryan C. Brown, 2019-09-09 Author Ryan C Brown details the harrowing days of the Great Steel Strike of 1919 that rocked Pittsburgh and its seemingly impregnable principality of steel In 1919 the steel industry of Pittsburgh was on the brink of war Years of labor strife broke out into open conflict as steel workers launched the biggest strike to date in the United States paralyzing mills from Youngstown to Johnstown and beyond Radical unionists anarchists and Bolshevik sympathizers set bombs planned for revolution and fought police in violent battles As the postwar Red Scare began to sweep the nation federal agents used the strikes as an excuse to comb Pittsburgh's immigrant neighborhoods looking for communists

strike breakers during periods of class conflict As a result the migration heightened racial conflict and undercut important union organizing initiatives The 1919 Steel Strike illustrates how racial divisions crippled many American unions a pattern that helps to explain the demise of organized labor during the 1920 s No previous studies of the 1919 Steel Strike have systematically compared community processes to determine how local events shaped the strike s outcome Despite the failure of the 1919 Steel Strike the varied experiences of workers in different communities reveal much about the causes of racial conflict and the possibilities of interracial solidarity This study finds that patterns of black migration local government repression of labor the organizational strength of local unions and employers efforts to inflame racial tension all help to explain community level variation in interracial solidarity and conflict Ph D dissertation Emory University 1996 revised with new preface
