Steeped In Two Cultures:

Steeped in Two Cultures Fritz Redlich, 1971 A Way Through the Global Techno-Scientific Culture Sheldon Richmond, 2020-04-07 Computers are supposed to be smart yet they frustrate both ordinary users and computer technologists Why are people frustrated by smart machines Computers don't fit people People think in terms of comparisons stories and analogies and seek feedback whereas computers are based on a fundamental design that does not fit with analogical and feedback thinking They impose a binary an all or nothing approach to everything Moreover the social world and institutions that have developed around computer technology hide and reinforce the lack of alignment between computers and people This book suggests a solution we do not have to accept the way things are now and work around the bad social and technical design of computers Rather it proposes a diverse distributed critical discussion of how to design and build both computer technology and its social institutions A Tale of Two Cultures Gary Goertz, James Mahoney, 2012-09-09 Some in the social sciences argue that the same logic applies to both qualitative and quantitative methods In A Tale of Two Cultures Gary Goertz and James Mahoney demonstrate that these two paradigms constitute different cultures each internally coherent yet marked by contrasting norms practices and toolkits They identify and discuss major differences between these two traditions that touch nearly every aspect of social science research including design goals causal effects and models concepts and measurement data analysis and case selection Although focused on the differences between qualitative and quantitative research Goertz and Mahoney also seek to promote toleration exchange and learning by enabling scholars to think beyond their own culture and see an alternative scientific worldview This book is written in an easily accessible style and features a host of real world examples to illustrate methodological points **Overcoming the Two Cultures** Richard E Lee Jr, Immanuel Wallerstein, 2015-12-03 This book tells the story of how the very idea of two cultures the so called divorce between science and the humanities was a creation of the modern world system The contributors working from a common research framework trace the divorce of facts and values as part of the transition from feudalism to capitalism This led to a polarization between universalist science and the particularist humanities and finally to the creation of the social sciences as an uneasy intermediary in this epistemological debate The book addresses the contemporary attempts to overcome the division between the two cultures that emerge from science feminism race and ethnic studies cultural studies and ecology ending with an analysis of the culture wars and the science wars Contributors Volkan Aytar Ayşe Betül Celik Mauro Di Meglio Mark Frezzo Ho-fung Hung Biray Kolloupçulu K3 4r13 4 Agustín Lao Montes Eric Mielants Boris Stremelin Sunaryo Norihisa Yamashita Deniz Yukeseker Economic Response Charles Poor Kindleberger, Charles P. Kindleberger, 1978 The Two Cultures, Revisited Howard Burton, 2020-10-01 The Two Cultures debate of the 1960s between C P Snow and F R Leavis is one of the most misunderstood intellectual disputes of the 20th century Most people think that the debate only revolved around the notion that our society is characterized by a divide between two cultures the arts or humanities on one

hand and the sciences on the other This book is based on an extended conversation between Howard Burton and University of Cambridge intellectual historian Stefan Collini and author of the book *What Are Universities For* which provides a careful examination and illuminating insights of what the issues really were in this debate This carefully edited book includes an introduction Returning to the Source and questions for discussion at the end of each chapter I Cultural Assumptions On the benefits of reading II Saving the World C P Snow s moral agenda III Literary Osteoporosis Scientists vs literary intellectuals IV Into the Mainstream Snow becomes a sage V Enter F R Leavis Questioning authority VI Combatting Clichés The Industrial Revolution and challenging prose VII The Fallout Immediate and longer term effects VIII Lessons Learned Examining Leavis impact IX What Are Universities For Appreciating unique strengths X Constructive Engagement Critical inquiry and watching one s language XI The Humanities vs The Sciences Ruminations on progress XII General Implications The ongoing relevance of The Two Cultures About Ideas Roadshow Conversations Presented in an accessible conversational format Ideas Roadshow books not only explore frontline academic research but also reveal the inspirations and personal journeys behind the research

Industrial Culture and Bourgeois Society Jürgen Kocka,1999 Jürgen Kocka is one of the foremost historians of Germany whose work has been devoted to the integration of different genres of the social and economic history of Europe during the period of industrialization This collection of essays gives a representative sample of his effort to develop by reference to Marx and Weber new and powerful analytical tools for understanding the dynamics of modern industrial societies

STEEPED IN TWO CULTURES Fritz Redlich,1971

California Dreaming Nahum Karlinsky,2012-02-01 The citrus industry of Palestine has often been associated with the myths and ideals of the Labor Movement and its Zionist Socialist ideology The Jaffa orange like the young pioneer and the collective kibbutz was emblematic of a colonizing meta narrative that marginalized or even denounced the private entrepreneurs both Arabs and Jews who were the true founders and proponents of the flourishing citrus industry in Palestine California Dreaming reveals that these private entrepreneurs regarded the California citrus industry as their primary model of emulation Utilizing an innovative multidisciplinary approach Nahum Karlinsky vividly reconstructs the social fabric economic structure and ideological tenets of the Jewish citrus industry of Palestine in the early twentieth century Also accentuated is the role of Palestinian Arab citrus growers whose industry predated that of their Jewish counterparts and the complex relationship between the two national sectors that operated side by side

Dissent, Revolution and Liberty Beyond Earth Charles Cockell,2016-03-10 This volume provides an in depth discussion on the central question how can people express and survive dissent and disagreement in confined habitats in space The discussion is an important one

because it could be that the systems of inter dependence required to survive in space are so strong that dissent becomes impossible John Locke originally said that people have a right to use revolution to overthrow a despotic regime But if revolution causes violence and damage that causes depressurisation with the risk of killing many people is it even permissible to have a revolution How then are people to express their liberty or dissatisfaction with their rulers The emergence of structures of dissent and disagreement is an essential part of the construction of a framework of liberty in space revolution is just the extreme example and thus the topic deserves in depth and immediate attention Even today the way in which we assemble organisations and corporations for the government and private exploration of space must take into account the need for mechanisms to allow people to express dissent

Flax and Hemp, their culture and manipulation

... With illustrations Eugene Sebastian Delamer (pseud. [i.e. Edmund Saul Dixon.]),1855 **Pulling Up Roots**

Christopher Eiben,2023-06-30 Forsaking their lives in Rutland Vermont Nathan Perry and his young family journeyed to the Genesee River in far western New York the heart of the Great Western Wilderness beyond the limits of civilized America By autumn 1790 they had built a primitive cabin their new home surrounded by a vast primeval forest populated by thousands of truculent Seneca natives who resented their presence So began the Nathan Perry family s many long years as trailblazing frontiersmen in the wilds of western New York and later in Ohio where they went native befriending their tribal neighbors adopting their habits out of convenience and necessity As the 18th century wound down Nathan Perry found himself at the tense interface of two cultures one ascendant and the other in steep decline in a time fraught with racial tension and rapid change Respected by both white settlers and the native tribes Nathan Perry witnessed and influenced western New York s transformation from wilderness to settlement in remarkably few decades It easily be mistaken for fiction but the Nathan Perry family s amazing true story is one of adventurism fortitude and endurance under challenging changing circumstances A family history particularly one going back centuries faces the difficult task of telling the stories of people who are now largely unknowable This book focuses primarily on Nathan Perry Sr and his family Who were they really What were they like Kind or callous Good natured or sullen Outgoing or aloof We cannot know But we can draw inferences by learning more about what these long gone people experienced By examining shreds of evidence from aged records and linking them with the sweep of history the dead gradually come into focus
