Contemporary Romanian Cinema Dominique Nasta,2013-11-19 Over the last decade audiences worldwide have become familiar with highly acclaimed films from the Romanian New Wave such as 4 Months 3 Weeks and 2 Days 2007 The Death of Mr Lazarescu 2005 and 12 08 East of Bucharest 2006 However the hundred or so years of Romanian cinema leading to these accomplishments have been largely overlooked This book is the first to provide in depth analyses of essential works ranging from the silent period to contemporary productions In addition to relevant information on historical and cultural factors influencing contemporary Romanian cinema this volume covers the careers of daring filmmakers who approached various genres despite fifty years of Communist censorship An important chapter is dedicated to Lucian Pintilie whose seminal work Reconstruction 1969 strongly inspired Romania s 21st century innovative output The book s second half closely examines both the minimalist trend Cristian Mungiu Cristi Puiu Corneliu Porumboiu Radu Muntean and the younger but no less inspired directors who have chosen to go beyond the 1989 revolution paradigm by dealing with the complexities of contemporary Romania

Exploring Art for Perspective Transformation Alexis Kokkos,2021-05-12 We live in a socio cultural reality which is dominated by an entrepreneurial and instrumental rationality as well as by a discriminative and populist mentality Questioning the validity of taken for granted sovereign perspectives is thus of vital importance Our contact with art can serve as a pathway through which we might be empowered to identify false life values and develop the disposition and ability to challenge them The learning potential of aesthetic experience is however barely exploited within educational systems In addition although major scholars have contributed to a deeper understanding of the liberating dimension of processing important artworks there has been surprisingly little discussion in the relevant literature focusing on educational practice Exploring Art for Perspective Transformation provides a comprehensive analysis and synthesis of theoretical views pertaining to the emancipatory process of exploring art Moreover it presents the educational method Transformative Learning through Aesthetic Experience TLAE with reference to particular examples of implementation TLAE

is addressed to adult educators and school teachers regardless of the subject they teach and their theoretical background on aesthetics. It involves engaging learners in exploring works from fine arts, literature, theatre, cinema, and music with a view to promoting critical reflection on one's potentially problematic perspectives. **ABM**, 1974. Abstracts of journal articles, books, essays, exhibition catalogs, dissertations, and exhibition reviews. The scope of ARTbibliographies Modern extends from artists and movements beginning with Impressionism in the late 19th century up to the most recent works and trends in the late 20th century. Photography is covered from its invention in 1839 to the present. A particular emphasis is placed upon adding new and lesser known artists and on the coverage of foreign language literature. Approximately 13,000 new entries are added each year. Published with title LOMA from 1969-1971. **Language and Travel Guide to Romania** Rosemary Rennon, 2007. Rosemary Rennon discovered Romania in 1993 when she went hunting for the small village where her father was born. She was captivated by its scenery and by the simplicity of a country just awakening from its long communist nightmare. Unfamiliar to many due to its long isolation, Romania is comprised of five distinct regions resulting from both their unique landscapes and their historical populations of Dacians, Romanians, Germans, Hungarians, and Turks. In addition to its rolling green hills and valleys with the arc of the Carpathian mountain chain in its centre, the country's southeastern region on the Black Sea provides a massive wildlife refuge as well as miles of sandy beach resorts. Its cities are filled with outstanding architectural gems and modern activities. All this plus a fascinating turbulent history and the lovely Romanian tongue considered by many to be the original romance language belong to a culture one will never want to leave. **Dictionary Catalog of the Research Libraries of the New York Public Library, 1911-1971** New York Public Library. Research Libraries, 1979. *The Romanian Mass Media and Cultural Development* David Berry, 2017-07-05. This compelling book assesses the development of the mass media since the Romanian Revolution in December 1989 and the media's impact on cultural development, the public sphere, civil society, and democracy. It controversially claims that Romania's failure to experience a thoroughgoing enlightenment project in its entire history remains a major obstacle for producing democratic ownership of the media and democratic development of society. Analyzing both the print and broadcast media and their respective effects on development, the book also discusses the effects of Romanian law on media and societal development, ethics, and media responsibilities. It concludes, however, that far from having an absolutely negative impact on Romanian post-communism, the media has helped produce a contradictory empirical form that equally contains positive moments in terms of subjective cultural development. **Information Bulletin - National Committee for the Defense of Peace in the Socialist Republic of Romania** Comitetul National pentru Apărarea Păcii din Republica 'Socialistă România, 1976. **On the Artistic Representation of Industrial Disputes in the Shadow of Repression in European Art** Filip Dorssemont, 2024-07-29. This book is the first volume on the artistic representation of industrial disputes in European art from 1870 to 1914 since the catalogue of the landmark exhibition *Streik Realität und Mythos* organized by the Deutsches

Historisches Museum 1992 It has been written by a group of scholars who share a keen interest in social history and the history of art as well as in depth knowledge of industrial relations and collective labour law Seeking to transcend a purely western European perspective the book offers unprecedented insights into artistic production in Poland and Hungary from the 19th century to the communist era It even goes beyond the European continent examining the United States and Mexico The media explored include painting sculpture the graphic arts and photography Further the book deals with artists great Carlo Carr Walter Crane James Ensor Juan Gris K the Kollwitz Constantin Meunier Mih ly Munk csy Th ophile Alexandre Steinlen and Jan Toorop and small sometimes even anonymous The artistic styles range from social realism naturalism and neo impressionism to futurism and socialist realism All stages of industrial disputes from the causes of strikes to their violent suppression are subjected to iconographical and iconological analysis combined with perspectives from visual studies critical art and gender studies Agricultural workers miners construction workers and textile workers fill the scenes Most of them are subordinate workers others are bogus independent workers and migrant workers Given its scope the book will be of interest to art historians labour law scholars and specialists in industrial relations
