Stendhal Or The Pursuit Of Happiness:

Stendhal; Or the Pursuit of Happiness Matthew Josephson, 1956 *Novel Configurations* Allan H. Pasco, 1994 During a period when the field of literary studies turned away from texts to theory *Novel Configurations A Study of French Fiction* has become an underground classic Although it proposes a theory that theory is inductive and solidly based in real works of fiction While looking again at significant masterpieces that range from the early nineteenth to the late twentieth centuries from the creations of traditional French writers to that of an Argentine who spent most of his productive life in France Allan H. Pasco has perceptively indicted new but valid close readings that have revolutionized our view of these works He suggests that *La Chartreuse de Parme* is rigorously organized that Balzac was a narrational minimalist that Huysmans developed novelistic strategies that would be played out in the *Nouveaux Romains* that Proust intended good readers to come away from *À la recherche du temps perdu* with very different but complementary interpretations that Robbe-Grillet's *La Jalousie* turns on a plot that seems strange only because it takes place in the mind of the narrator From these philologically sophisticated interpretations Pasco lucidly elegantly and wittily points to categories that include all fiction Concentrating on patterns and description on the one hand and external and internal organization on the other *Novel configurations* proposes a new classification that can be easily taught to novices though it will help even professional readers understand the most complex fictional innovations

Stendhal ; Or, The Pursuit of Happiness, a Biography Matthew Josephson, 1946 Stendhal's Less-Loved Heroines Maria C. Scott, 2017-12-02 Stendhal's most independent heroines are usually disliked or marginalized by critics However when gender neutral criteria are applied Mina de Vanghel Vanina Vanini Mathilde de La Mole and Lamiel can all be shown to enact extraordinary experiments in freedom These experiments are all the more remarkable in view of the gender of their agents the historical situation of the author 1783-1842 and the conventions of the literary movement that his fiction helped to found realism Simone de Beauvoir's 1949 study of Stendhal's heroines gives preference to the reserved females over his Amazons But existentialism as a philosophy of freedom also enables a reading of the self-determining heroines that acknowledges the superiority of their choices their resistance and counter-plots their paradoxical authenticity their rejection of seriousness and their assumption of responsibility for the routes they plot

letters Rousseau inaugurated the idea of a heroic and committed writerly life in which the opposition between public and private selves is collapsed This was done in the cause of creating a future political community founded on transparency Porter with both a wide ranging knowledge of contemporary theory and an informed interest in cultural historical context gives close readings of relevant works by a number of major French writers including Stendhal Baudelaire Sartre Barthes Duras Althusser and Foucault Thus he explores the persistent importance of the Rousseauist paradigm for French literary culture The book goes beyond a critique or theory that interprets literary or philosophical works for their own sake to reveal representations and self representations of the idea of the writer in paintings engravings and photographs as well as in literary texts In concluding Porter argues that with the collapse of faith in social and individual regeneration through revolution the archetype of such a writer is also waning
