**A Stephen Crane Encyclopedia** Stanley Wertheim, 1997-10-28 The publication of *The Red Badge of Courage* in 1895 brought Stephen Crane instant fame at age 23. At 28 he was dead. In the brief span of his literary career Crane enjoyed a significant measure of renown as well as notoriety but his reputation rested almost entirely upon his war novel and he felt that his talent had ultimately been misjudged. From his adolescence until his death Crane was a professional journalist. To this day most educated American readers know him only as the author of the most realistic Civil War novel ever written, three or four action-packed short stories and a handful of iconoclastic free verse poems. Crane was befriended and admired by some of the most important literary figures of his time such as William Dean Howells, Willa Cather, Joseph Conrad, Henry James and H. G. Wells. He has also been called a realist, a naturalist, an impressionist, a symbolist and an existentialist. This reference book provides a more complete picture of Crane's short but furiously creative life and encourages a more extensive appreciation of his works. The volume includes hundreds of entries for members of Crane's immediate and extended family, close friends and associates, educational institutions that he attended, places where he resided, publishers and syndicates by whom he was employed, literary movements with which he is usually associated and the works of fiction, poetry and journalism that he wrote. Thus the book shows that he was a pioneer in the development of a number of genres in modern American fiction and poetry; that he was the first literary chronicler of the burgeoning slums of urban America who refused to sentimentalize his materials; that his Western stories reveal the steady retreat of the American frontier before the encroachments of a modern Europeanized civilization; and that his short stories and poems engage a number of enduring themes. Many of the entries cite works for further reading and the volume includes a chronology and a bibliography of the most important studies of his life and writing.

Stephen Crane Paul Sorrentino, 2014-06-05 Stephen Crane's short, compact life, a life of fire, he called it, is surrounded by myths, distortions and fabrications. Paul Sorrentino has sifted through garbled chronologies and contradictory eyewitness accounts, scoured the archives and followed in Crane's footsteps. The result is the most accurate account of the poet and novelist to date.

**Student Companion to Stephen Crane** Paul M. Sorrentino, 2005-11-30 Born into a family of writers, Stephen Crane wrote his first poem, *I'd Rather Have*, when he was eight and his first short story, *Uncle Jake and the Bell Handle*, at around the age of 13. Despite never having completed a course of study at any of the colleges he attended, Crane decided in the spring of 1891 to pursue a career as a writer. While working as a journalist, he penned *Maggie: A Girl of the Streets*, a novella written in the Naturalist style that depicted the seaminess of urban tenement life. Enduring his own poverty and taking temporary reporting jobs, Crane completed his literary masterpiece, *The Red Badge of Courage*, a dramatic depiction of a soldier's inner life during the American Civil War in April 1894. The author, who continued to write both journalistic pieces and short stories until his death in June 1900, is one of the most highly regarded and popularly taught American authors today. Stephen Crane pursued his writing career during a time when the literary world was moving from

Romanticism to Realism and Naturalism and later in his life Impressionism and Modernism Sorrentino examines each of Crane's works identifying the influence of these literary movements and world events on his novels short stories and poetry including *Maggie A Girl of the Streets* *New York City Stories and Sketches* *The Red Badge of Courage* *War Stories* *Western Stories* and *Tales of Whilomville* **Stephen Crane** Harold Bloom, 2007 Stephen Crane is widely recognized as a master of literary naturalism His best known works include the classic novel *The Red Badge of Courage* the short stories *The Open Boat* *The Bride Comes to Yellow Sky* and *The Blue Hotel* and some of the nineteenth century's most innovative lyric poems The essays gathered in this updated volume offer a wealth of critical information and analysis that speaks to Crane's relevance and far ranging influence Book jacket **The Encyclopedia Britannica** James Louis Garvin, Franklin Henry Hooper, Warren E. episodes in the life of the elusive writer as told by acquaintances This book collects reminiscences by contemporaries friends and associates of Stephen Crane that illuminate the life of this often misunderstood and misrepresented writer Although Crane is widely regarded as a major American author conclusions about his life work and thought remain obscure due to the difficulties in separating fact from fiction His first biographer recorded mostly vague impressions and to mythologize his subject invented a multitude of the episodes and letters used in his account of Crane s life Subsequent biographies were either cursory summations or compendiums of verifiable facts Crane himself was both reclusive and mercurial protective of his inner life while projecting a variety of personae to suit others A flamboyant personality and close friend of writers such as William Dean Howells Henry James and Joseph Conrad Crane made telling impressions on his contemporaries They often constitute the best assessments of Crane s own personality and work The 90 reminiscences gathered here offer a much needed account of Crane s life from a variety of viewpoints as well as important information about the contributors themselves

Multicultural Writers from Antiquity to 1945 Alba Amoia, Bettina L. Knapp, 2001-10-30 The final decades of the 20th century have seen an explosion of interest in multiculturalism But multiculturalism is more than an awareness of the different cultures comprising contemporary societies For centuries people from around the world have come in contact with cultures other than their own and their exposure to multiple cultures has fostered their creativity and ability to make lasting contributions to civilization The effects of multiculturalism are especially apparent in literature since writers tend to be particularly aware of their environments and record their experiences This reference includes alphabetically arranged entries for more than 100 world writers from antiquity to 1945 who were significantly influenced by cultures other than their own Included are entries for major canonical Ancient and Modern writers of the Western and Eastern worlds Each entry is written by an expert contributor and includes a brief biography a discussion of multicultural themes and contexts a summary of the writer s critical reception and primary and secondary bibliographies By illuminating the shaping influence of multiculturalism on these writers the volume points to the lasting value of multiculturalism in the contemporary world

**The Editing of American Literature, 1890-1930** Donald Pizer, 2012-07-30 Since the 1960s Donald Pizer has been writing about late 19th century American literature with an emphasis on the major fiction of Theodore Dreiser and Stephen Crane Most academics whose interests lie primarily in the preparation of scholarly editions are attracted to the paradoxical mix of adherence to a rigorous process and an opportunity for speculative thinking that is distinctive to this branch of literary studies And they often find appealing the notion that the end product of their labors is a book that unlike much criticism is sure to be used by others and to have a long lifespan However Pizer came to textual discussion from a different direction than most editors of scholarly editions who seldom wrote criticism about the authors and works they were engaged in editing Consequently Pizer was drawn into the text wars of scholarly editions and during the last three decades of the 20th century he produced a number of essays tackling this sometimes contentious subject *The Editing of American Literature 1890 1930*

collects Donald Pizer's essays and reviews that examine the issues associated with providing authoritative scholarly editions of major turn of the century American authors Divided into four sections general essays on editing essays and reviews on the editing of Theodore Dreiser essays and reviews on the editing of Stephen Crane and essays on the interplay of textual theory and critical interpretation in works by Crane and John Dos Passos the volume expresses a distinctive position in the text wars that dominated the editing scene of the 1970 2000 period This collection of essays will be of interest to textual editors of any persuasion as well as literary critics and scholars with a special interest in late 19th and early 20th century American literature

*The Historian's Red Badge of Courage* Paul A. Cimballa, 2020-07-08 For someone who did not actually fight in the American Civil War Stephen Crane was extraordinarily accurate in his description of the psychological tension experienced by a youthful soldier grappling with his desire to act heroically his fears and redemption Stephen Crane's novel *The Red Badge of Courage* provides an extraordinary take on the battlefield experiences of a young soldier coming of age under extreme circumstances His writing took place a generation after the war's conclusion at a time when the entire nation was coming to grips with the meaning of the Civil War It was during this time in the late 19th century that the battle over the memory of the war was taking place This new annotated edition of the novel is designed to guide readers through references made through Crane's characters and how they reflect Civil War military experiences specifically how the youth's experiences reflect the reality of the multi day battle of Chancellorsville which took place in Virginia beginning on May 1 1863 and concluded on May 4 of the same year The annotated text is preceded by introductory essays on Crane and on the Civil War Crane's short story *The Veteran* is also included to allow readers to better understand the post war lives of Civil War soldiers

*Black Frankenstein* Elizabeth Young, 2008-08-10 For all the scholarship devoted to Mary Shelley's English novel *Frankenstein* there has been surprisingly little attention paid to its role in American culture and virtually none to its racial resonances in the United States In *Black Frankenstein* Elizabeth Young identifies and interprets the figure of a black American *Frankenstein* monster as it appears with surprising frequency throughout nineteenth and twentieth century U S culture in fiction film essays oratory painting and other media and in works by both whites and African Americans *Black Frankenstein* stories Young argues effect four kinds of racial critique they humanize the slave they explain if not justify black violence they condemn the slaveowner and they expose the instability of white power The black *Frankenstein*'s monster has served as a powerful metaphor for reinforcing racial hierarchy and as an even more powerful metaphor for shaping anti racist critique Illuminating the power of parody and

reappropriation Black Frankenstein tells the story of a metaphor that continues to matter to literature culture aesthetics and politics

**Reconciling Nature** Robert M. Myers, 2019-10-30 Reconciling Nature maps the complex views of the environment that are evident in celebrated American novels written between the Centennial Celebration of 1876 and the end of the Second World War During this period which includes the Progressive era and the New Deal Americans held three contradictory views of the natural world a recognition of nature's vulnerability to the changes brought by industrialism a fear of the power of nature to destroy human civilization and a desire to make nature useful Robert M Myers argues they reconciled these conflicting views through nature nostalgia policing of wilderness areas and through strategies of control borrowed from the social sciences Myers combines environmental history with original readings of eight novels producing fresh perspectives on Mark Twain's Adventures of Huckleberry Finn Stephen Crane's Maggie Kate Chopin's The Awakening Upton Sinclair's The Jungle Mary Austin's The Ford Theodore Dreiser's An American Tragedy Zora Neale Hurston's Their Eyes Were Watching God and William Faulkner's Go Down Moses While previous ecocritical works have focused on proto environmentalism in classic works of literature Reconciling Nature explores the ambivalence within these texts demonstrating how they reproduce views of nature as threatened threatening and useful The epilogue examines the environmental ideologies associated with the development and deployment of the first atomic bomb
